Read the following letters.

o, 52. From Lieutenant-Colonel J. H. BELL, Chief Engineer; to J. D. BOURDILLON, Esq., Secretary to Government, dated 12th September 1859, No. 4882.

I have the honor, with reference to paragraph 11 of the order of Government as per margin, to submit a list of appointments proposed to be made, in order to give effect to the change of denomination of the officers of the partment under the new district arrangements.

ptember 2nd No. 2106.

2. In the column of remarks, I have entered the immediate or prospective arrangements hich I recommend in conformity with the new distribution; and I request that I may receive thority to make these arrangements gradually, without further reference to Government, unss any change in them should appear advisable.

3. I did not intend that the Executive Engineer at Jackatalla should be excluded from ie new arrangement, but that his place in the district lists should be supplied for the period f his remaining on special duty. Paragraph 15 of my letter mentioned only the Executive fficer at Bangalore, with any others that might be specially appointed as extra to the establishent; and the statement submitted with my letter consequently included Captain Farewell as elonging to the establishment. The plan denoted in the order of Government is, however, prerable, and I am accordingly obliged to alter the distribution by allotting two instead of three rst assistants to the Kistnah division.

4. Mr. Merral the officer in charge of the Bezoarah workshop was included among the cond, not the first assistants in the statement; but I have in the distribution of officers, alwed two second assistants independent of him, and have agreeably to his own request, posted m to South Arcot, as acting second assistant District Engineer, with the intention that he all take up the appointment when, under any new arrangements for the Bezoarah workshop, e can be spared from his present employment. In the mean time the district establishment of outh Arcot will be maintained; and I may add that in the new arrangements I have taken care ot to deprive any district of its proper complement of officers, and have, therefore, proposed at some who are transferred, shall continue to do duty in their present districts till a favorable pportunity for their removal shall occur.

5. I have not provided acting first assistants for Kurnool and Salem, as there are no ficers conveniently available, and as these appointments are likely to be vacant only a short me longer.

6. I request that it may be notified when the list of new appointments is published, that ie reduced scale of allowances is not to be applied to the officers who were executive Engieers of the 3rd class, or to those who were assistant Engineers prior to the date of the publcation.
