No. 91. Read the following,

No. 4670.

List of a Bill for works executed on emergency, submitted for the sanction of Government.

Date of Bill.	Audit No.	From whom.	Description of Work.	Amount of Bill. Rs.	A.	P.	To what year the expenditure appertains.	Remarks.
1859 July 29th	1004	Garrison Engineer.	For adding new buildings on the north and south wings of the Government office in the Fort.	10,348	10	5	1858-59	An estimate for this work amounting to Rupees 10,510, was submitted to Government with letter No. 4391, dated 9th October 1858, but it was ordered in Extract Minutes Consultation, No. 308, dated 4th Feburary 1859, that revised plans and estimates should be prepared and forwarded, providing in addition to the above for the erection of a steam engine in the Government printing office. It having been, however, subsequently determined after much discussion, that in lieu of the latter, a cistern should be constructed on top of the grand magazine, an estimate for the work, amounting to Rupees 11,670 was submitted to Government on the 7th, and sanctioned on the 16th July 1859, No. 1081; and as the additional rooms on the north and south ends of the Government office (for which the estimate first mentioned was submitted), were completed so long ago as the 30th April last, upon the authority granted to the Garrison Engineer in Extract Minutes Consultation, No. 752, dated 19th June 1858, Public Department, it was considered unnecessary to re-submit the estimate for that work, the same having been completed about 2½ months before the submission of the estimate for the cistern, forwarded on the 7th July 1859, with which it should have been transmitted.
