Public Works DEPARTMENT. Con, 10-6-57

G.O. No. 1355 Press Mis.

1363.7

Dated 8-6- 18 57.

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department, from 1st to 10th June 1859.

No. 136. Read the following letter from Lieutenant-Colonel J. H. BELL, Chief Engineer; to J. D. BOURDILLON, Esq., Secretary to Government, dated 3rd June 1859, No. 1211.

I have the honor, with reference to my letter of the 26th of ~~April~~ May 1859, No. 866, to submit a letter from the Inspector General of Ordnance and Magazines requesting me to address the Government on the subject of relieving his Department of all responsibility with regard to the Tugs in the Tartar and Sourisquois.

1st June 1859 No. 1311.

2. I quite concur with the Inspector General as the landing of a Tug from the "Tartar" by the Store Department of my office, and of two Tugs, I believe, from the "Sourisquois" by Mr. Faulkner under the instructions of the Honorable the Governor through Colonel Cotton is already going on, and it would not be right now to subject the Ordnance Department to any responsibility for the Machinery.

3. I further recommend in conformity with the suggestion of the Inspector General that the value of the Machinery may be adjusted entirely by the Engineer Store Department.

No. 137. ORDER THEREON, 8th June 1859, No. 1395.

Resolved accordingly that the Inspector General of Ordnance and Magazines be relieved from all responsibility connected with the Public Works Machinery on board the "Tartar" and "Sourisquois."

(Signed) J. D. BOURDILLON,
Secretary to Government.

Sir,—

I have the honor with reference to my letter of the 26th of ~~April~~ May 1859, to submit a letter from the Inspector General of Ordnance and Magazines requesting me to address the Government on the subject of relieving his Department of all responsibility with regards to the Tugs in the Tartar and Sourisquois.—

2.— I quite concur with the Inspector General as the landing of a Tug from the "Tartar" by the Store Department of my Office, and of two Tugs, Sheliene, from the "Sourisquois" by Mr. Faulkner under the instructions of the Honorable the Governor through Colonel Cotton is already going on, and it would not be right now to subject the Ordnance Department to any responsibility for the Machinery.—

J

3. I further recommend in conformity with the suggestion of the Inspector General that the value of the Machinery may be adjusted entirely by the Engineer's Store Department. —
