*Proceedings of the Madras Government, Public Works Department,
from 1st to 10th June 1859.*

No. 150. Read the following letter from Lieutenant-Colonel J. H. BELL, Chief Engineer;
to J. D. BOURDILLON, Esq., Secretary to Government, dated 31st May 1859,
No. 1098.

I have the honor to forward for submission to Government, a Plan and Estimate amount-
ing to Rupees 810, for constructing a Bridge of two arches over
the surplus channel of the Purgee tank in the Penagonda Ta-
look of the Bellary District.

1 Letter from Collector of Bellary No. 4, dated 22nd February 1859.
1 Do District Engineer No. 367, dated 18th February 1859.
1 Do do. No. 35, dated 18th May 1859.
1 Abstract Estimate.
1 Plan.

2. The work is represented to be necessary as a very large traffic passes along the road to the market at Hindoopoor, and for want of a bridge much delay is occasioned when the calingalah is discharging, and even when the channel is dry, its bed is so rocky that the bandies are considerably shaken and often shattered and broken.

3. Under these circumstances it appears to me desirable that the work brought to notice should be executed, and I accordingly recommend that sanction be granted for its construction out of the discretionary allowance for the ensuing official year at a cost of Rupees 810, the Estimate having been examined in this office and found correct.

No. 151. ORDER THEREON, 9th June 1859, No. 1402.

Under the orders noted in the margin the disposal of discretionary and local funds is vested jointly in the Collector and the District Engineer, subject in certain cases to the orders of the Chief Engineer. The project referred to in this letter needs no order therefore from Government or even from the Chief Engineer.
