1-

Proceedings of the Madras Government, Public Works Department, from 1st to 10th June 1859.

No. 187. Read the following letter from Lieutenant-Colonel J. H. BELL, Chief Engineer; to J. D. BOURDILLON, Esq., Secretary to Government, dated 18th May 1859, No. 621.

With reference to Extract Minutes Consultation of the 14th February 1859 No. 374, calling for certain information regarding the data on which the Estimate for the annual maintenance of the piece of road between Sahib's and Vendaloor Choultries outside the Cantonment of Saint Thomas' Mount was calculated, &c., I herewith forwarded a sketch map, showing that the road in question, nearly two miles in length, is one of three leading from Madras towards Chingleput through* that Cantonment, and I have the honor to inform you that the District Engineer of Chingleput states that his Estimate was based upon the established allowance of "one cubic yard of metal per mile per annum per cart per diem," and that if the amount be large, it is because the piece of road being within a station, and assigned to the use of carts on a line of enormous traffic, the wear and tear is excessive.

* Para. 2 of Extract Minutes Consultation No. 246 of 27th January 1859.

2. This very satisfactorily accounts for the allowance recommended by the District Engineer being so much higher than usual, and I trust the Estimate will find a place in the Budget of 1860-61, as ordered in Extract Minutes Consultation of the 12th January 1859 No. 112.

No. 188. ORDER THEREON, 10th June 1859, No. 1121.

The Governor in Council sanctions an allowance of Rupees (2,080) two thousand and eighty for keeping in repair during the current official year the piece of road between Sahib's and Vendaloor Choultries outside the Cantonment of Saint Thomas' Mount in the Chingleput District. He resolves however, to make the Orders of April 20th and May 14th 1859 Nos. 935 and 1154 applicable to this road also. In accordance with that order the Chief Engineer will report in due time his final opinion as to the correct amount of annual allowance required for the future maintenance of the roads and the proper data for estimating it.

(Signed) J. D. BOURDILLON,
Secretary to Government.
