2. With the view of testing the practicability of this arrangement, the Governor

All Printed Forms for every Department ought, in my Opinion to be supplied from the Government Press in Fort St. George. The Executive Engineer of Salem has stated in his Estimate that 3 Reams of Paper will be required for the purpose, which he considers sufficient for 2 years consumption of the articles mentioned therein. I do not consider it necessary to have printed more than 1 Ream of Paper at present, and should therefore recommend that the Executive Engineer be directed to forward a requisition for the Paper required, which will be supplied from the Stores in Fort St. George. The Executive Engineer should be directed to make out his Bills in future in accordance with Circular Order of the Board of Revenue dated 5th March 1856 and to pay Circular Order Bills in the manner laid down in that Order.
