Dated 16-4 1857.

Not to be folded or roughly handled

Fort Saint George, Public Works Consultation of 19th April 1859.

Read again Circular from the Government of India, dated 7th December 1858, No. 6146, and recorded in Consultation 18th January 1859.

No. 70. Read also the following letter from Colonel C. E. FABER, Chief Engineer; to J. D. BOURDILLON, Esq., Secretary to Government, dated 21st February 1859, No. 8052.

Sir,

With reference to your Official Memorandum under date the 9th Instant, calling for a Return of Estimates sanctioned in this Office during the month of January 1859, I have the honor to forward herewith a List of the Current and Special Repairs sanctioned during that period, prepared according to the Form No. 5 appended to the Classification Report received from the Supreme Government.

2. The above List includes Estimates reported to the Central Office to have been sanctioned by Local Officers as well as those approved and sanctioned during the same month by the Superintending Engineers and myself.

3. I beg to explain that this Office possesses no information as to what Estimates appertain to Current and what to Special Repairs, as no such distinction has been hitherto recognized in this Presidency, although the sum sanctioned by Government in excess of that provided in the Budget of the Current year, has been placed by me under the latter head in the Statement now forwarded.

No. 71. ORDER THEREON, No. 907; dated 16th April 1859.

1. Ordered that the List of Repairs submitted with the above letter be embodied in a General Return of Estimates sanctioned by this Government during the month of January 1859, and that the latter document be forwarded to the Government of India.

2. Colonel Faber observes that he possesses no information as to what items of those entered in his List appertain to Current and what to Special Repairs. He will perceive from para. 60 of the Classification Report that the former term is meant to "include all the usual periodical repairs of Works and Buildings maintained at the charge of Government" for which provision was made in Statement No. 3 of the Budget and that by the latter is understood "those repairs arising from unforeseen casualties caused by fires, floods, &c." The terms being thus clearly defined, there can be no difficulty in keeping the sanctions for the two classes of repair distinct from each other. Lieut.-Colonel Bell will therefore issue the necessary instructions to the local Officers in view to this being done; and care should be taken to observe the same distinction in the Central Office.

3. The Government observe that the amount sanctioned for minor new works of less than 500 Rupees each, previously to the month of January, is not shewn in the present Statement, they request that this information may be given in future Returns.

4. Adverting to the note at the foot of the Statement, that no accounts are submitted to the Central Office monthly of the outlay from the discretionary grants allotted to each District, or from the authorized maintenance allowances for Roads, the Government would remark that all that is required is, that the List should shew in the proper columns the disbursements *sanctioned* out of the two sources in question, during the month, and previous to that period from the commencement of the official year. The *actual expenditure* in either case need not be stated.

5. The Chief Engineer will take measures to procure all the requisite information from the Districts, in time to enable him to forward to Government future similar Statements, prepared in a complete form, by the 10th of each month.

(Signed) J. D. BOURDILLON,
Secretary to Government.

Central Office of Pw.

No. 88/52

From
The Chief Engineer
To
The Secretary to Government
Department of Pw.

Sir

Public

With reference to your official Memorandum under date the 9th instant calling for a Return of Estimates sanctioned in this Office during the month of January 1859 I have the honor to forward herewith a List of the Current and special repairs sanctioned during that period prepared according to the form No. 5 appended to the classification Report received from the Supreme Government.

Estimates / List

2 The above List includes Estimates reported to the Central Office to have been sanctioned by Local Officers as well as those approved

approved and sanctioned during the same month by the Superintending Engineers and myself

3. Beg to explain that this Office professes no information as to what Estimates appertain to current and what to special professions as no such distinction has been hitherto recognized in this Presidency although the same sanctioned by Government in cases of that provided in the Budget of the Current year, has been placed by me under the latter head in the Statement now forwarded.

Fort St George. I have the honor to be
21st February 1859 Sir.
