17/11/38

No. 89. Read the following letter from Lieutenant-Colonel J. H. BELL, Chief Engineer; to J. D. BOURDILLON, Esq., Secretary to Government, dated 14th November 1859, No. 7205.

To Director of Public Instruction, No. 5512, dated 28th September 1859.
From ditto No. 200, dated 22nd October 1859, with 1 enclosure.
To Principal Civil Engineering College, No. 6752, dated 1st November 1859.
From Principal Civil Engineering College, 3rd November 1859, with 1 enclosure.

Referring to the order of Government of the 15th September last, returning revised rules for entrance into and promotion in the Department Public Works set up in print, for reconsideration in communication with the Director of Public Instruction, I have now the honor to transmit the rules amended in accordance with all orders of Government as received up to this time; and agreeably to the opinions of the Director of Public Instruction in connection with those of the Principal Civil Engineering College, as exhibited in the correspondence with those gentlemen noted in the margin herewith forwarded.

2. The scheme for adding another department to the College for the special training of draughtsmen and estimate makers was duly sent to Mr. Arbuthnot for his consideration and opinion; and I observe that he has submitted it to Government with his letter of the 11th October, in which he recommends that only one additional teacher should be sanctioned for this purpose. I cannot concur in that opinion. If there is to be a special drawing and estimating class, formed for the special training of draughtsmen and estimaters, a teacher in each branch to devote his whole time to that duty will be absolutely requisite.

No. 90. ORDER THEREON, 18th January 1860, No. 132.

Paragraph 1. With this letter the Chief Engineer submits with reference to the order of Government dated 15th September 1859 No. 2222 revised rules for entrance into and promotion in the subordinate department of the Department of Public Works.

2. The rules have been revised in accordance with the views expressed in the order above quoted, and in communication with the Director of Public Instruction, and Principal of the Engineering College. In their present shape, and with the addition of the further rule proposed in the Chief Engineer's letter of the 8th December No. 8142 which will be inserted as rule 14 they are approved and sanctioned for adoption in supersession of the first thirty-one paragraphs of the notification No. 1 of the 23rd June 1857.

(Signed) T. PYCROFT,
Chief Secretary.

and Public Works
for his consideration and Approval and Decision thereon
he has submitted to Government the letter
of the Mess[rs] Dobson in which they recommend the grant
of additional Land
