PUBLIC WORKS DEPARTMENT.

No. 13 of 1860.

TO THE RIGHT HONORABLE THE SECRETARY OF STATE FOR INDIA.

RIGHT HONORABLE SIR,

Paragraph 1: We have the honor to forward for your information a letter from Captain Rundall, our Consulting Engineer for the Irrigation and Canal Company, dated 1st February 1860, giving an account of his late tour to inspect site of the line of the works about to be undertaken by that Company, together with a copy of our Proceedings, 4th April 1860, No. 690. Proceedings thereon of this date No. 690.

2. Captain Rundall's Report is accompanied by a sketch Map, and furnishes a clear outline of the several parts of the proposed works. It will be seen from our Proceedings that we have not given a decided opinion as to the expediency of allowing the Company to construct the Mári Tank; we have, however, called on our Chief Engineer for his professional opinion, whether that Tank forms a proper part of the system of works to be undertaken by them. Should it ultimately appear to us that that work properly forms a portion of their general plan, we shall be prepared to advise that it should be handed over to them, and to recommend further that the Company should be allowed to increase the amount of their guaranteed capital to enable them to undertake it. All the other parts of the scheme sketched out in the above Report seem to us strictly connected as members of a general whole, so that no part could properly be omitted.

3. For our notice of the remaining parts of Captain Rundall's letter, we refer you to our Proceedings.

We have the honor to be,

Right Honorable Sir,

Your most obedient humble Servants,

FORT SAINT GEORGE,
4th April 1860.

Exd. Wm. Thomas.

No 13 of 1860

Mr D^r
We have the honor
to forward for your inform-
ation a letter from Captain
Rundall our Consulting
Engineer for the Irrigation
and Canal Company, dated
1st February 1860, giving an
account of his late tour to
inspect site of the line of
the works about to be
undertaken by that Com-
pany, together with a
copy of our proceedings
thereon of this date No 690
2. Captain Rundall's
report is accompanied by
a sketch map, and fur-
nishes a clear outline of
the several parts of the
proposed works. It will
be

we saw from our Proceedings
that we have not given
a decided opinion as to the
expediency of allowing the
Company to construct the
Mare tank; we have
however, called on our Chief
Engineer for his professional
opinion whether that
tank forms a proper part
of the system of works
to be undertaken by
them. Should it ult-
imately appear to us that
that work properly forms
a portion of their general
plan, we shall be pre-
pared to advise that it
should be handed over
to them, and to recommend
further that the Company
should be allowed to in-
crease the amount of their
guaranteed capital to
enable them to undertake
it. All the other parts of
the

Fort George,
