Dated	<u>4-1-60</u>	18 Dec.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
for the month of January 1860.*

Read the following letters.

No. 34. From Captain F. H. RUNDALL, Consulting Engineer for the Madras Irrigation and Canal Company; to J. D. BOURDILLON, Esq., Secretary to Government, dated Karnúl, 10th December 1859, No. 8.

I have the honor, with reference to the order of Government Public Works Department, dated 29th November 1859, No. 2782, to forward copy of a letter addressed by me to Her Majesty's Resident at Hyderabad; furnishing the information called for by the Resident in his letter to Government, dated 8th November 1859, No. 1649.

No. 35. From Lieutenant-Colonel CUTHBERT DAVIDSON, Resident at Hyderabad; to T. PYCROFT, Esq., Chief Secretary to Government, dated Hyderabad Residency, 14th December 1859, No. 1863.

I beg to enclose copy of a letter, No. 1832, which I have addressed under this date to Captain Rundall, Consulting Engineer for Irrigation Company.

Letter from Lieutenant-Colonel CUTHBERT DAVIDSON, Resident at Hyderabad; to Captain F. H. RUNDALL, Consulting Engineer for Irrigation Company, Karnúl, dated Hyderabad Residency, 14th December 1859, No. 1862.

I have the honor to acknowledge the receipt of your letter of the 10th instant, No. — from which I understand that it is intended to build two dams across the Tumbaddra at spots where the left bank of the river is in possession of the Nizam. It appears to me that such works cannot be undertaken, without the previous consent of His Highness, and to enable me to obtain full information on the subject, I beg to state that Mr. Wilson, the Executive Engineer of Raichúr Dúab in the Hyderabad assigned territories has been requested to place himself in communication with you and to furnish me with a full report on the projects so far as they may affect the interests of the Hyderabad country.

No. 36. ORDER THEREON, 4th January 1860, No. 17.

The Consulting Engineer will be informed that he mistook the order of Government dated 29th November 1859, No. 2782. The intention was that he should furnish the information required to Government, and not direct to the Resident at Hyderabad.

2. In all cases of projects decided upon in connection with the Tumbaddra and Kistna rivers, Captain Rundall will put himself in communication with Mr. Wilson, Executive Engineer of the Raichúr Dúab.

3. Ordered that the following letter be despatched.
To the Resident, Hyderabad.

(Here enter 4th January 1860, No. 18.)

(Signed) J. D. BOURDILLON,
Secretary to Government.

No. 37. Ordered in consequence that the following letter be despatched.
From J. D. BOURDILLON, Esq., Secretary to the Government of Fort Saint George; to Lieutenant-Colonel C. DAVIDSON, Resident at Hyderabad, dated 4th January 1860, No. 18.

This Government called on the Consulting Engineer for the Madras irrigation and canal company, for the information requested in your letter of the 8th November 1859, No. 1649, in respect to any works proposed to be erected by that company on the Tumbaddra or Kistna

which place, and signed where

*Proceedings of the Madras Government, Public Works Department,
for the month of January 1860.*

rivers; but that officer, mistaking the purport of the requisition, furnished the information direct to you. His letter of which he transmitted a copy to this Government, appears however to contain all that is required, and it does not seem to this Government necessary for them to add anything more to it.

2. I am directed to add with reference to your letter to Captain Rundall received with one to my address dated 14th December 1859, No. 1863, that this Government are desirous to satisfy His Highness the Nizam and to do nothing at all injurious to his interests; and that with that view, Captain Rundall has been instructed to put himself in communication with Mr. Wilson, in the case of any work decided upon in connection with the two rivers referred to.

Public
Revenue Inspector

From

The Consulting Engineer
for the Madras Irrigation
and Canal Company
To Her Majesty's Resident
at Hyderabad

Sir,

1. Agreeably to the order of Government dated 29th ultimo desiring that the information sought in your letter to the Secretary, D.P.W. of the 8th ult. might be furnished. I have the honor to observe;

2. That the first principle which the Government insist on, is the strict preservation of all existing rights. No operations of the Company will therefore be allowed to interfere with them.

3. The projects of proposed irrigation, and for which Plans and Estimates are in preparation are: a. Dam across the Tumbuddra above Bejjanaggar, and a Canal for Navigation and Irrigation led off from it on the right bank through Bellary across the Huggly and on to Kurnool, 13 miles below which place, and beyond where

any water can possibly be led to
H. H. territory, it is proposed to con-
struct another Dam, and to cut
a Canal through the watershed which
separates the Tumbudda from the
Hoondaw, for the purpose of pro-
viding irrigation for the valley of
that River, and also for the District
of Mallero, and completing the chain
of water communication to Madras

4. The supply for this Ca-
anal is to be derived from the sur-
plus waters of the Tumbudda
which at present run to waste to the
sea.

5. In an ordinary high fresh
of the Tumbudda, about 30 millions
cubic yards of water pass down, past
the weir above Bejannigera - and
from the 20th May to the end of Janu-
ary it is computed that there are
never less than 2 millions in the
River, and probably an average of
5 millions - Of this it is proposed
that not 1 million is now led on to
the land.

6. Of the 30 millions mentioned
above the Company own & probably
use

not more than 2 millions on the
Bellary side - but as by their pro-
posals it appears that they are
willing to extend their operations
whenever required - I doubt not
they would gladly make better or
similar set of works for the sur-
plus water on the left bank in
the High River territory.

7. I would beg to add that
in the event of your having any
objections to offer or suggestions to
make on the above mentioned
scheme and of your deeming Con-
gruous officer for the purpose I
shall be happy to meet him and
confer on all points he may wish
to discuss.

Thornhill
15 December
1857.

Sub-Memo. Dept.

20th April 1860

To

Sir, M. Colonel C. Davidson
Resident at Hyderabad

Sir,

This Government is
called on the Consulting En-
gineer for the Madras Iri-
gation and Canal Company,
for the information requested
in your letter of the 8th November
1859, to the effect, in respect to any
works proposed to be erected
by that Company on the
Tumbuckra or Krishna rivers,
but that Office, mistaking
the purport of the requisition,
furnished the information
direct to you. His letter of the
11th November, in which he
transmitted a copy to this Govt.,
appears however to contain
all that is required, and
it does not seem to this
Government necessary for
them to add anything more
to it.
