*Proceedings of the Madras Government, Public Works Department,
for the month of January 1860.*

No. 177. Read the following letter from Lieutenant-Colonel J. H. BELL, Chief Engineer, to the Secretary to Government, dated 19th January 1860, No. 9333.

With reference to the order of Government marginally quoted, I have the honor to submit for the consideration of Government, a letter* from the District Engineer of Malabár, regarding the present dilapidated state of the Yennamakal Dam.

Extract Minutes of Consultation No. 1202, dated 25th June 1858.
* No. 410, dated 24th December 1859.

2. I have consulted Colonel Lawford who inspected the work in 1857, and that officer is of opinion that the work must now be in a much worse condition than when he visited it, and considers that it will soon be destroyed unless prompt measures are effected.

3. Should the Dam be breached the channel from the lake must be greatly deepened by the freshes and the construction of temporary Dams to keep out the salt water will be extremely difficult and expensive, I have the honor, therefore, in consequence of the urgency of the case and the large revenue depending upon this work, to solicit the early sanction of Government for an advance of Rupees 5,000, five thousand, upon the repair fund of 1860-61, pending the receipt of the estimate called for from the District Engineer.

P. S.—It should be added that there are no funds of this year available.

No. 178. ORDER THEREON, 30th January 1860, No. 245.

Under the circumstances represented in this letter, the Honorable the Governor in Council authorizes the Collector of Malabár to make the advance applied for in the last paragraph for the repair of the Yennamakal Dam.

(Signed) T. PYCROFT,
Chief Secretary.

Department

Sir,

With reference to the order of Govern.

In Memo of Govt. 1855.
dated 20th Jan 1858.

most marginally quoted I have the honor to sub-
mit for the consideration of Government a
letter from the District Engineer of Malacca
regarding the present dilapidated state of the
Jennamabul Dam.

N^o 412 dated 24th
December 1857.

1. The work is in a
very bad state
and will need a
large sum of
money.

2.

I have consulted Colonel Lauder
who inspected the work in 1857 and that
Officer is of opinion that the work must now
be in a much worse condition than when
he visited it, and considers that it will soon
be destroyed unless prompt measures are
effected.

3.

Should the Dam be breached
the Channel from the Lake must be
greatly deepened by the freshes and the
construction

construction of temporary Dams to keep out the
Salt Water will be extremely difficult and is
expensive, I have the honor therefore in con-
sequence of the urgency of the case and the
large Revenue depending upon this work to solicit
the early sanction of Government for an advance
of Rupees 5000, ^{upon the repair fund of 1860/61} five thousand, pending the
receipt of the Estimate called for from the
District Engineer.

I have the honor to be
etc,
