*Proceedings of the Madras Government, Public Works Department,
12th December 1860.*

No. 163. Read the following letter from Lieutenant-Colonel W. H. HORSLEY, Chief Engineer, to J. D. SIM, Esq., Acting Secretary to Government, dated Chepauk, 26th November 1860, No. 7,362 :—

SIR,

1 Proc. of the Board of Rev., No. 4,751,
dated 18th Oct. 1860 (Original).
1 Letter from the Dist. Engr., Madras,
No. 392, dated 9th July 1860.
1 Copy of Mr. Kennedy's letter.
1 Report.
1 Abstract Estimate.
2 Plans.
1 Letter do., No. 693, dated 11th Sept
1860.

1. With reference to paragraph 2 of the Orders in the Revenue Department, No. 645, dated 26th April last, I have the honor to forward herewith for submission to Government, Plans and Estimates, amounting to Rupees 11,500, received from the District Engineer of Madras for the construction of a Salt platform at Homes' gardens in the Adayár, and of branch channels from the above platform and those near Covelong to the Adayár river and Sadras Canal.

2. The Plans and Estimates have been prepared by Mr. Kennedy, in communication with the Collector of Madras, and the Deputy Collector in charge of the Salt Department, and provide for the following works :—

(1). Constructing a platform at Homes' gardens, 500 by 400 feet, bordered on the southern side by a basin 400 by 75 feet with a canal at right angles leading to the Adayár.

(2). Reforming and improving the roads in connection with this platform, and

(3). Cutting six branch channels from the existing platforms to the Sadras Canal, 8 yards wide at top, 4 at the bottom, and 3 feet deep.

3. The Board of Revenue, to whom the accompanying documents were forwarded, generally approve of the Plans and Estimates, and are desirous that the work should be commenced at once. Two points mooted in the papers received from the District Engineer, viz., the course of the Payanúr channel, and the cost of the proposed channels being borne by the Ryots, have been referred by the Board for the report of the Collector, as also for that gentleman's opinion as to the necessity for more than one platform in each village. From paragraph 4 of their Proceedings of the 18th October 1860, No. 4,751, it will be seen that the Board deem it undesirable to await the settlement of their reference to the Collector, but request the sanction of Government for commencing the work without delay, so far as it has been decided upon.

4. The Plans and Estimates have been duly examined in this Office, and as there are no funds for proceeding with the work immediately, I have to recommend them for entry in the Budget of 1861-62.

No. 164. ORDER THEREON, 12th December 1860, No. 2,558.

1. The Honorable the Governor in Council approves the Plans forwarded by the Chief Engineer for the construction of a Salt platform at Homes' gardens in the Adayár, for making branch channels from the Pans at Covelong, Vadasamanjiri and Payanúr in the District of Madras, to the coast canal; and for connecting the above platform and the Adayár by a similar channel; and grants authority for entry in the Budget of 1861-62, of the Estimates for the works amounting together to Rupees 11,500.

2. The Board will submit to Government at an early date their views on the subjects referred to in paragraphs 2 and 3 of their Proceedings of the 18th October last, No. 4,751, which may affect to some degree the Estimates for the works under reference.

(Signed) J. D. SIM,
Acting Secretary to Government.

Central Office Public Works
Chipsaut 26th November 1860

From N^o 7362

Lieutenant Colonel W. H. Horsley
Chief Engineer
To J. D. Sim, Esq.,
Acting Secretary to Government
Public Works Department

Revenue Sir,

Fort Saint George

With reference to para 2 of the
Orders in the Revenue Department,
N^o 645, dated 26th April last, I have the
honor to forward herewith for submission
to Government Plans and Estimates,
Amounting to Rupees 11,500, received from
the District Engineer of Madras for the
construction of a Salt Platform at
Homes Gardens in the Adyar, and of
branch Channels from the above
platform

platform and those near Corbelong
to the Adyar river and Sadras Canal.

2. The Plans & Estimates
have been prepared by Mr. Kennedy,
in communication with the Collector
of Madras, and the Deputy Collector in
charge of the Salt Department, and
provide for the following works (1) —
Constructing a Platform at Ames
Gardens 500 by 400 feet, bordered on
the Southern side by a Drain 400 by
75 ft with a Canal at right angles
leading to the Adyar (2) Reforming &
and improving the roads in connection
with this Platform, and (3) cutting 6
Branch Channels from the existing
Platforms to the Sadras Canal, 8 yards
wide at top, 4 at the bottom, and 3 feet
deep.

3. The Board of Revenue,
to whom the accompanying documents
were forwarded, generally approve of
the Plans & Estimates and are desirous
that the work should be commenced
at once. Two points brot in the
papers

platform and those near Covelong
to the Adyar river and Sadras Canal.

2. The Plans & Estimates
have been prepared by Mr. Kennedy,
in communication with the Collector
of Madras, and the Deputy Collector in
charge of the Salt Department, and
provide for the following works (1) —
Constructing a Platform at Homes
Gardens 500 by 400 feet, bordered on
the Southern side by a Dacia 400 by
75 ft. with a Canal at right angles
leading to the Adyar (2) Reforming &
and improving the roads in connection
with this Platform, and (3) cutting 6
Branch Channels from the existing
Platforms to the Sadras Canal, 8 yards
wide at top, 4 at the bottom, and 3 feet
deep.

3. The Board of Revenue,
to whom the accompanying documents
were forwarded, generally approve of
the Plans & Estimates and are desirous
that the work should be commenced
at once. Two points brot in the
papers

papers received from the District
Engineer, viz: the course of the Pijamir
Channel, and the cost of the proposed
Channels being borne by the Ryots, have
been referred by the Board for the
report of the Collector, as also for that
Gentleman's opinion as to the necessity for
more than one platform in each village.
From para 4 of their Proceedings of the
18th October 1860, No. 4/57, it will be
seen that the Board deem it undesi-
rable to await the settlement of their
reference to the Collector, but request the
sanction of Government for commencing
the work without delay, so far as it has
been decided upon.

The Plans & Estimates have
been duly examined in this Office, and as
there are no funds for proceeding with the
work immediately I have to recommend them
for entry in the Budget of 1861/62.

I have the honor to be,

Sir,

Your most obedient servant.
