*Proceedings of the Madras Government, Public Works Department,
for the month of February 1860.*

No. 7. Read the following letter from Lieutenant-Colonel J. H. BELL, Chief Engineer; to the Secretary to Government, dated 19th January 1860, No. 9302.

Referring to the order of Government noted in the margin, I have the honor to forward further correspondence with the District Engineer and the Collector of Ballári, in regard to

No. 2662, 15th November 1859, calling for further particulars regarding Halasagur tank in Ballári.

1 Copy of Proceedings of Chief Engineer, No. 659, dated 26th November 1859

1 Letter from District Engineer Ballári, No. 261, dated 14th October 1859, with one enclosure.

the Halasagur tank in that district.

2. The Collector in his letter No. 229, 14th December last, to the District Engineer states, that the cultivation under the tank has ceased since it was breached a second time in October 1852, prior to which the revenue had amounted to Rupees 500.

3. The estimate submitted with my former communication amounting to Rupees 1,990, is for repairing the breach and building a new kalingal, which it is expected will restore the revenue to its former amount Rupees 500, but no further increase is expected.

No. 7145, dated 12th November 1859.

No. 8. ORDER THEREON, 1st February 1860, No. 258.

No expenditure having been proposed in the Chief Engineer's budget for 1860-61, for the repair of the Halasagur tank in the Ballári district, the work will lie over until the following season.

(Signed) T. PYCROFT,
Chief Secretary.

No 7657.

Extract from the Proceedings of the Chief Engineer in the Department
of Public Works.

Under date the 26th November 1859.

Read: the following Proceedings of the
Madras Government.

/Chew Enter N: 2662 dated 15th November 1859/

Ordered to be communicated to the
District Engineer of Bellary with a request that
he will furnish the information required by
Government. The Chief Engineer observes that on
a former occasion viz 7th August 1851 the
Engineer F. Division in forwarding an Estimate
for repairs amounting to Rupees 2505-15-0, stated
it was more than 4 years ordinary Revenue. By
the papers recently submitted the present Revenue
appears to be Rupees 500. It requires to be
explained how the Revenue of a breached
tank is Rupees 500, when the Ordinary
Revenue of the tank under repair is Rupees
600. It is hoped that clear and definite
information

information will be given in answer to the
several queries of Government.
