*Proceedings of the Madras Government, Public Works Department,
for the month of February 1860.*

No. 127. Read the following letter from Lieutenant-Colonel J. H. BELL, Chief Engineer;
to the Secretary to Government, dated 27th January 1860, No. 9673.

I have the honor, with reference to the order of Government as per margin, to state that it
was my intention to request Colonel Lawford
to perform the duty of inspecting the Mar-
teyár under tunnel and Ponéri channel this
season.

May 27th 1859, No. 1278.
1 Letter from District Engineer, Trichinapali, dated 27th
December 1859, No. 1068, with 1 plan.

2. As however, the inspection would be of no use unless the tunnel were laid open and
as that again would be inexpedient, except as preparatory to immediate repair, I requested the
District Engineer to report if he could assign funds for the repair estimated at Rupees 7,500,
seven thousand and five hundred, in the current year, and also if the tunnel could be left un-
repaired without probability of further injury.

His letter herewith submitted, shews that the tunnel may be let alone without danger, and
also that there are no funds available for its
repair. The same is the case with regard to
the channel which would also be of no use without the tunnel. Under these circumstances, I
have intimated to Colonel Lawford that his visit to the localities should be again adjourned, and
I have now to report my proceedings for the information of Government.

December 27th 1859, No. 1068.

No. 128. ORDER THEREON, 9th February 1860, No. 320.

Ordered to be recorded.

J. H. M. - Lieutenant
Chief Engineer

To the Secretary to Government
Department of War

The expenses in this matter are reported at the foot of the bill to have been caused by the necessity which existed of making bank instead of technical for the London mile.

This is a statement to be made to the additional to the same either having been employed in making & which in the pillars instead of the same as provided for in the estimate, but, as the government requires it, I have made it as certain as I could which was found to be indispensable having been expected.
