Resolved that the estimate received with the above letter be forwarded to the Chief Engineer, with the Board's request that he will take the necessary measures for repairing the choultry in question, and adapting it for use as a Kacheri by the Deputy Collector.

2. From the building being described as "dilapidated," the Board conclude it is neither used nor required as a choultry, and that its appropriation as a Kacheri is, therefore, unobjectionable with reference to Regulation VII of 1817. The Collector will report on this point without delay.
