TO

THE RIGHT HONORABLE THE SECRETARY
OF STATE FOR INDIA.

RIGHT HONORABLE SIR,

Paragraph 1. In paragraph 7 of our letter in the Military Department dated 8th June 1859, No. 122, we informed you that we had created twenty studentships for the Engineering College at Madras to be selected from the European non-commissioned officers and privates of Her Majesty's British and Indian forces on this establishment. We now submit a letter from the Director of Public Instruction giving cover to one from the Principal of the College reporting the result of this experiment, together with the orders passed by us.

2. We regard the result as described by Captain Winscom to be satisfactory. Captain Winscom writes "I am happy to say that the conduct of one and all has hitherto been unexceptionable, whilst their assiduity in the pursuit of their studies has been exceedingly praiseworthy. They seem fully to appreciate the opportunity offered them of advancing themselves in this country, and I think are actuated in their behaviour and conduct by gratitude and by desire of personal advantage."

3. The further measures for affording military students the opportunity of obtaining employment in any public department or under the railway or irrigation company, and of increasing their number in the college, will be found stated in our Proceedings of the 5th January 1860 No. 40 to which we solicit your attention.

We have the honor to be,

Right Honorable Sir,

Your most obedient humble Servants,

Fort Saint George, }
