*Proceedings of the Madras Government, Public Works Department,
for the month of March 1860.*

No. 32. Read the following letter from Colonel J. H. BELL, Chief Engineer; to the Secretary to Government, dated 20th February 1860, No. 10494.

Referring to order of Government No. 26, 4th January 1860, directing a report at the end of the first month to be made of the operations and receipts of the Steamer "Progress," I have the honor to state that in going to Ennore on the 21st January last, the Steamer sustained an injury which has prevented her running since. The injury was owing to neglect on the part of the Engineer in charge, who kept up a high fire without sufficient water in the boiler, and this caused such serious injury to some of the boiler plates and the tubes inside, that it has become requisite to take the boiler out of the vessel, and it will probably require another fortnight or more to complete the repairs and make her fit for work. The repairs are under execution at the shed on the Island under the Government Mechanical Engineers.

No. 33.

ORDER THEREON, 2nd March 1860, No. 460.

Ordered to be recorded.

(Signed) T. PYCROFT,
Chief Secretary.

Sir,

Public.

Referring to order of Government
N^o 26. 4th January 1866 directing a Report
at the end of the first month to be
made of the operations and receipts
of the Steamer "Progress" I have the
honor to state that in going to Enmore
on the 21st January last the Steamer
sustained an injury which has
prevented her running since. The
injury was owing to neglect on the
part of the Engineer in charge who
kept up a high fire without supplying
water in the boiler, and this caused
such serious injury to some of the
Boiler Plates and the Tubes inside
that
