*Proceedings of the Madras Government, Public Works Department,
for the month of March 1860.*

No. 115. Read the following Proceedings of the Board of Revenue, dated 23rd February 1860, No 952.

Read the following letter from W. FISHER, Esq., Collector of South Canara, dated Mangalore, 11th February 1860, No. 18.

With reference to the Orders of Government, in the Public Works Department, dated 4th January 1860, No. 20, communicated to me by order of the Board on the 9th idem, I have the honor to state, that I have received intimation that the Honorable the Governor will not visit Mangalore during his Excellency's present tour, and I therefore request, that early sanction may be granted for executing the necessary repairs to my Kacheri in abeyance pending the decision of his Excellency the Governor, who proposed to inspect the site of the existing building, and that on which the Judge's Court is situated, before allowing the work to be proceeded with.

2. Nearly two years have now elapsed since a portion of the Kacheri was pulled down, and the consequent crowding together of the Establishment has been a constant cause of trouble, whilst it is difficult to keep proper control over the Printing Office, which has of necessity been established in the Museum, a building at some little distance from the Kacheri.

3. The state of the roof of the Treasury has also lately attracted my attention, and I am anxious to have it renewed before the setting in of the monsoon; but as long as the repairs of the Kacheri itself are postponed, pending the determination of Government as to the site of the building, I am of course unable to proceed with the minor work, though repairs are urgently required before the rainy season sets in.

Submitted for the consideration and orders of Government.

No. 116. ORDER THEREON, 9th March 1860, No. 504.

In the Orders of the 4th January, No. 20, the Government sanctioned an Estimate to the amount of Rupees 3,300 for rebuilding part of the Collector's Kacheri at Mangalore, conditionally on its being decided by the Honorable the President on his then expected early visit to the District, that the position of the Kacheri was not to be changed.

2. His Excellency having been prevented from visiting Canara on his late tour, the Government now resolve to make the sanction absolute, and to authorize the District Engineer to execute the work forthwith.

3. This will not prevent the ultimate removal of the Kacheri to the site proposed by the Collector, in case the President should, when visiting Mangalore, as he hopes to do at the end of the present year, consider such removal to be desirable. In that case the present Kacheri and premises will be sold, and from the situation will command a good price; and the sum obtained will certainly be increased in consequence of this repair.
