Read also the following paper :—

Minute by the Honorable the Governor.

(Here enter 18th February 1860.)

ORDER THEREON, 2nd March 1860, No. 256.

The Honorable the Governor has examined the site, selected for the European Penitentiary on the Neelgherries. It is situated on a spur of Dodabett on the right hand side of the road from Jackatalla to Utakamund, His Excellency pronounces the situation to be well suited for the purpose, both as regards climate and the immediate circumstances of the locality.

2. Of the two spots suggested—one on the crest of the hill and the other on a lower shelf—the latter will be preferred, as it is more sheltered, and building upon it will not be so expensive, as it would be higher up.

3. The Chief Engineer will place himself in communication with the Inspector General of Jails, in view to the preparation of Plans and Estimates for the proposed Penitentiary. Cells, it will be observed, will have to be constructed for 100 Convicts. It would be well, however, that the design should be such as to admit of more cells being added hereafter if at any future time it should prove necessary.
