PUBLIC WORKS DEPARTMENT.

No. 53 of 1860.

TO THE RIGHT HONORABLE THE SECRETARY OF STATE FOR INDIA.

RIGHT HONORABLE SIR,

1. The papers we have the honor to forward have reference to the Orders issued by us for the amalgamation of the two offices of Civil Architect and Garrison Engineer at the Presidency.

<i>Proceedings of Govt., 4th May 1860, Nos. 70, 71.</i>	
<i>Do. 23rd " " 66, 67.</i>	
<i>Do. 26th June " " 406, 407.</i>	

2. This change was suggested by the late Chief Engineer in his letter dated 21st April 1860, No. 12,547. The reasons stated were principally these: 1st, that the separate appointment of the Garrison Engineer was rendered unnecessary by the recent Order* transferring the control of the Garrison of Fort Saint George to His Excellency the Commander-in-Chief, by which the Executive Officer was placed on the same footing relatively to the Military Authorities

* 23rd March 1860, No. 1,162, *Military Department, forwarded with Despatch in that Department, dated 20th June 1860, No. 138.*

as a District Engineer in the interior; 2nd, that inconvenience had resulted from the division of the original establishment of the Superintending Engineer at the Presidency into two parts for the Civil Architect and Garrison Engineer respectively; 3rd, that the competition between the Departments in the prosecution of their works tended to raise the price of materials to the prejudice of the interests of Government. It was further represented that if the whole of the Presidency works were placed under the Civil Architect, his charge would still be far less extensive and onerous than that of a first-class up-country District. For these reasons, Colonel Bell submitted the following proposals:—

- (1.) That the Civil Architect should be placed in charge of the entire Presidency works.
- (2.) That the appointment of Garrison Engineer should be abolished.
- (3.) That the salary of the last-mentioned Officer should be divided between two Assistants to the Civil Architect; Rupees 300 being given to one and Rupees 200 to the other.
- (4.) That the designation of the Presidency Executive Officer should be altered from Civil Architect to District Engineer of Madras.
- (5.) That to cover the extra carriage expense which the new arrangement would involve, the salary of the Civil Architect and of each of the Assistants should be increased by 50 Rupees, to be obtained by substituting a Second for a First Assistant District Engineer in the General Department.

3. In our Proceedings of 4th May 1860, No. 930, we entirely approved the Chief Engineer's proposals, being of opinion that the changes advocated would greatly contribute to the efficiency and economy of this branch of the service at the Presidency; and we requested that Officer to submit a further report on the subject after the details had been arranged.

4. On the 23rd May, we approved a suggestion made by the present Chief Engineer for altering the designation of the Civil Architect to that of District Engineer, Presidency; the District Engineer of the late Chingleput District being called District Engineer of Madras.

W. C. C.

5: The Orders passed by us respecting the detailed arrangements necessary for carrying out the amalgamation of the two offices will be found in our Proceedings of 26th June, No. 1,312, to which we solicit your attention. You will observe from paragraph 3 of those Proceedings that we directed that the amalgamation should be carried into effect from 1st July 1860, and called on the Chief Engineer for a Statement recasting the two Establishments into one and showing the financial result of the change, for report to the Government of India.

We have the honor to be,

Right Honorable Sir,

Your most obedient humble Servants,

FORT SAINT GEORGE,
8th August 1860.

Recd

FORT SAINT GEORGE.
PUBLIC WORKS DEPARTMENT.

Letter to the Right Honorable
the Secretary of State for India,
Dated 8th August,

No. 53 of 1860.

Forwarding papers having reference to the Orders issued for
the amalgamation of the two offices of Civil Architect and
Garrison Engineer at the Presidency.

N^o 53 of 1860
To The Right Honorable
the Secretary of State
for India
Right Honorable Sir,

Copy of Govt. of May 1860 Nos 70.71.
8^o 23^o do 66.67
8^o 26 June 1860 406.407.

Para 1. ~~The papers~~
we have the honor to
have referred to the
orders issued by us for the
amalgamation of the two
offices of Civil Archi-
tect and Garrison Engineer
at the Presidency.

2. This change was
suggested by the late Chief
Engineer in his letter dated 21st
April 1860 No 12547. The rea-
son ^{stated} ~~adduced~~ by that
Officer in support of the
~~measure~~ were principally
that that the separate
appointment of the Garrison
Engineer was rendered
unnecessary by the

Recent

recent order transferring
the control of the Garrison
of Fort St George to His Ex-
cellency the Commander in
Chief, ~~by which~~ the
Executive Officer could
~~no longer remain in the~~
~~charge of the works~~
~~if one should have thought the~~
~~same thing but was placed~~
in the same footing rela-
tively to the Military Au-
thorities as that of the
District Engineer in the
that inconvenience had
resulted from the division
of the regular establish-
ment of the Superintendent
of the Garrison and the
Presidency into two parts
for the Civil Architect
and Garrison Engineer res-
pectively; 3rd That the

with Despatch No 138
Dep^y dated 26 June 1860
No 138.

7-
competition between the De-
partments of these two
Officers in the prosecution
of their works ^{had} tended to raise
the price of materials to the
prejudice of the interests of
Gov^t. It was further repre-
sented that if the whole of
the Presidency works were
placed under the Civil Ar-
chitect's charge would
still be far less extensive
and onerous than that of
a First class District
For these reasons, Col Bell
submitted the following pro-
posals.

- 1st That the Civil Architect
should be placed in charge of the
entire Presidency works.
- 2nd That the appointment
of Garrison Eng^r ^{should} be abolished.
- 3rd That the salary of the
last mentioned Officer be
divided between two Assistants
to the Civil Architect;

Re

Rs 300 being given to one and
 Rs 200 to the other.
 1st That the designation of the
 Presidency Executive Officer
 should be altered from Civil Architect
 to District Eng^r of Madras.
 2nd That to cover the extra
 carriage expenses which
 the new arrangement would
 involve, the salary of the
 Civil Architect and of
 each of the proposed Assistants
 should be increased by 50 Rs and
 to be obtained by substituting
 a second for a Third
 Assistant District Eng^r
 in the General Department.
 3rd The Proceedings of
 24 May 1860 No 930, were
 fully approved. The Chief
 Engineer's proposals, which
 having been discussed and
 having been of opinion, would
 greatly contribute to the
 efficiency and economy
 of this branch of the Ser-
 vice at the Presidency.
 and

9.
 we
 and requested that Officer
 to submit a further report
 on the subject after the
 details had been arranged.
 4. On the 23rd May,
 we approved a suggestion
 made by the present Chief
 Engineer for altering the desig-
 nation of the Civil Architect
 to District Eng^r Presidency,
 the District Eng^r of the
 late Chingleput district
 being called District
 Eng^r of Madras.
 5. The orders passed
 by us respecting the de-
 tailed arrangements
 necessary for carrying out
 the amalgamation of the
 two ^{Offices} Departments in question
 will be found set forth in
 our Pro^o of 26 June 1862,
 to which we solicit your
 attention. You will de-
 serve from para 3 of those
 Proceedings

Proceedings that we ~~are~~
~~anxious~~ that the amalgamation should
be carried into effect
from 1st July 1860, and
called on the Chief Engr
for a statement showing
the two Establishments, into
one and showing the fi-
nancial result of the
change, for report to the
Govt of India Co.
