*Proceedings of the Madras Government, Public Works Department,
for the month of March 1860.*

No. 105. Read the following Despatch from the Right Honorable Sir C. WOOD, Bart., Secretary of State for India, to His Excellency the Honorable the Governor in Council, Fort Saint George, dated India Office, London, 31st January 1860, No. 13:—

Paragraph 1. It would be of great assistance to me in this department, to be furnished with what might be termed an "Irrigation Map" of the Madras Territories, and I request that you will cause one to be prepared. I do not desire that it should be at all of an elaborate character. For its basis, a common outline Map might be used, drawn on a tolerably large scale, but shewing originally little more than the boundaries of Districts, the sites of chief towns, and the courses of rivers. On this, it would be sufficient to mark, in Indian ink, the positions of all anicuts and extensive reservoirs, and all main lines of canal. Completed works should of course be distinguished from those still in progress, and from those which, though designed and sanctioned, are not actually commenced.

2. I should be glad to have the Map as early as convenient.

No. 106. ORDER THEREON, 17th March 1860, No. 569.

A copy of this Despatch will be forwarded to the Chief Engineer and he will be requested to prepare and submit to Government as early as practicable, an Irrigation Map as described therein. The Chief Engineer will likewise furnish a duplicate copy of the Map for the use of the Government Office.

(Signed) J. D. BOURDILLON,
Secretary to Government.

Public

Sir,

Encls 1.

of 22nd Feb, 60
No 45

I have the honor to forward for submission to Government the accompanying letter from the District Engineer of South Arcot bringing to notice that the Civil Auditor continues to stop Rupees 125. out of Mr. T. B. Prasad's salary on account of his family payment in England tho his family left England in September last and has already joined him at Madras.

2 Captain Doord states that it must be owing to some mistake that no intelligence of the stoppage of the family payment in England has yet been sent by the India House and as it appears that so long as Official advice has not been received the Civil Auditor will continue to make the stoppage which

which must prove to Mr. Brosnahan
a serious inconvenience, I have the honor
to recommend that the necessary intima-
tion may be made to the Home Govern-
ment of this circumstance and that
authority may be granted to the Civil
Auditor to pay the full salary of Mr.
Brosnahan at least as an advance
to remove the inconvenience complained
of.
