*Proceedings of the Madras Government, Public Works Department,
for the month of March 1860.*

No. 154. Read the following letter from Colonel J. H. BELL, Chief Engineer, to the Secretary to Government, dated 25th February 1860, No. 10,676:—

With reference to the Order of Government appended to Extract Minutes Consultation marginally noted,* directing that reports of the general progress of the buildings at Jackatalla be furnished quarterly, I have the honor to state for the information of Government that, during the quarter ending 31st January 1860, materials for the completion of No. 4 Block of Barracks have been prepared, two Masonry Culverts for the drainage of the Barrack Square completed, excavation for foundation for the third commenced, all temporary buildings removed from the Barrack Square and scaffolding for fixing the Iron Drainage piping for the roofs have been set up.

2. Nos. 1 and 2 Blocks of Married Men's Quarters, with the last additions have been completed, with the exception of the stone flagging to lower verandahs, parapet walls and stone work to steps in rear;—the last fine coating of cement to the terraced roofs has not yet been laid on, the very cold and frosty nights, and extremely hot and sunny days being detrimental to that description of work;—both Blocks have been handed over to the Station Authorities for occupation affording accommodation for sixty families, and temporary arrangements deemed sufficient by the Station Authorities have been made for Privies and Wash-houses to these two Blocks.

3. The whole of the brickwork of the additions to No. 3 Block of Married Men's Quarters has been completed, and thirteen of the back rooms floored with Asphalte; six Solitary Cells being considered sufficient by the Officer Commanding, the remaining portion of the building has been prepared for sixteen families.

4. The walls of No. 4 Block of Married Men's Quarters together with those for the additions have been raised six feet above basement; back verandah colonnade of lower story raised to full height, materials collected, and doors and window frames made up.

5. The Privies and Wash-houses for these Quarters have not been commenced in consequence of a question having been mooted, regarding the proper distance to be allowed between them and the main buildings, changes at the same time have been recommended for the sewerage of the buildings, which in the end will be beneficial, and will effect a saving in their construction.

6. The Hospital Guard-room and Cell attached, Robing room, and Godown for the Cantonment Burial Ground, have all been completed and handed over to the Station Authorities.

7. The necessary additions of bolts to windows, hearth-stones chimney-pieces, gates to gateways of Commissariat Stores have been completed, and Privy for Office servants and European Guard commenced.

8. Materials for the Military Prison are being collected, but the construction of the building has been delayed pending decision regarding method of warming the Cells, &c. referred to England.*

9. The Armourer's Forge has been completed, and handed over to the Station Authorities, and materials have been collected for the commencement of the Reservoir.

10. Lower story joists and girders of School and Library have been laid down and walls raised 6 feet throughout.

11. Total sanctioned number of Native Privies have been built.

12. Excavation for Defensive Tower nearly completed and building materials are being collected, and Plans and Estimates for the sewerage of the Military Buildings have been submitted for sanction.

13. In conclusion, I have the honor to record my opinion of Captain Farewell's energetic discharge of duty and the satisfactory progress made in the construction of these buildings during the Quarter ending 31st January 1860.

No. 155.

ORDER THEREON, 20th March 1860, No. 593.

Ordered to be recorded.

(Signed) J. D. BOURDILLON,
Secretary to Government.

No 312

Special Executive Order
January 4th 1916

Captain W. T. Barrett

Special Executive Order

January 4th

The Deputy Chief Engineer T. C. C.

Fort Fort George

Have the honor to report on the general progress of the work in this Special Executive Order during the quarter ending on the 31st January 1916.

Materials for the completion of the building have been ordered and a large quantity about close to the building.

The masonry work for the drainage of the building has been completed, but some only are waiting to be built, the masonry for one of which is already being commenced, all the masonry work of the building has been arranged for the building and the building is now being prepared for the building.

That of the necessary galvanizing work piping has reached, scaffolding for the building has been ordered.

The masonry work has been completed with the exception of the stone masonry of the lower part of the building and the stone masonry of the lower part of the building. The masonry work of the building is now being prepared for the building. The masonry work of the building is now being prepared for the building.

The masonry work of the building is now being prepared for the building. The masonry work of the building is now being prepared for the building.

7. Stock. 1840. 2 lots of 100 each were taken
to the station, and the following arrangements
were made for the accommodation of the passengers
and the baggage. The baggage was taken to the
station and the passengers were taken to the
station and the baggage was taken to the station.

8. To A. B. Block of Lured me, quarters for the
the Western of the new addition for the first
and thirteen of the back was a flower bed. In fact
the station (Commercial) during its solitary existence
present for the Garrison, was requested to be accepted of
remaining portion of this building in which quarters
sector were furnished with beds in a fort. etc.

9. Ash Birch hollowed quarters together with the most odd pieces has been built six feet high above the basement now old and back windows extending over the bay built to the full height. Mats have been collected and doors and window frames made up for the building during the quarter all the birch doors and window frames and odd pieces by the quarters and odd pieces have been made up or stored in.

h. The Sumner's first answer for this purpose has
 not yet been received, a previous answer
 respecting the propriety of procuring the distance between
 them and the main building had already to the re-
 ference made on the subject having yet been received.
 The delay however will be of benefit in the end as respects
 my project for the removal of these buildings to the
 third. The fact of their not having been commenced
 will prove a saving by avoiding the owners which
 would have been necessary in these buildings had
 been their foundations had been laid.

11. The Hospital Grounds, on which ^{attached} have been
completed and devoted over to the Sisters of the Holy Family.

12. The Library, MSS. and Codices purchased for the Colonial Bureau, goods have been compiled and indexed over.

12. The masonry addition of bells to our dense, shabby stone and chimney forest, gave a gateway to the Commercial street at this station location made

answering for the office reports and answer your com-
plaints with the reception of the working order.

Mr. T. J. H. Mott, inquired for the Library
which would collect, this building is also an
important pending reference regarding the method of
harvesting it.

. 10. "C'est à travers les temps; n'a-t-on pas vu
un, et j'ai vu un autre monde."

16. Some material has been collected for determining the mercury work of the Governor which will be completed at an early date.

17. The lower story joints, in the girding of the school and library have been laid on the half, built on a layer of six feet high all over.

10. The total nineteenth century of Indian
 Service have been completed.

19. The extensive excavation required for the
Deposition Chamber has been nearly completed and
the building materials have been collected, the
building itself is completed within three
months.

2. Second, Plans for Antislavery
Christian Missions at this station have been pre-
pared and forwarded in station during the month.

21 His repairs repaired to the Christian
Buildings during the quarter have been attended to.
