*Proceedings of the Madras Government, Public Works Department,
for the month of March 1860.*

No. 41. Read the following Proceedings of the Madras Government in the Public Department, dated 16th March 1860, No. 384:—

Sanctioning the Estimate of Rupees 96 for filling up the Tank and removing the rampart curtain wall on the west side of the Native Military Ward of the Government Hospital. (Vide Public Proceedings from 11th to 20th March 1860, Nos. 61-62.)

No. 42. ORDER THEREON, 23rd March 1860, No. 619.

Ordered to be recorded.

(Signed) J. D. BOURDILLON,
Secretary to Government.

From

The Acting Physician
General Hospital.

To

The Superintending Surgeon

Sir

Providence

I have the honor to inform you that owing to the partial throwing down of the ramparts and excavations of the ground with the intention, now abandoned, of forming a tank at the west side of the Military wards of this Hospital, the ground has got into a very bad state, & from the drying up of the water in the pit, will soon be very offensive, & would, therefore, suggest that the ground there be cleaned and made wholesome by throwing the rubbish into the excavations, and opening the broken ramparts so as to allow of free ventilation. This would be an immediate benefit to the Hospital, and would clear the ground

to Genl's Messrs. 16th Feb 1860

for acc^d from this Hospital to the new
chappard buildings intended for natives.

A new chappard latrine is also
required for the Leprosy wards; but it cannot be
erected till a suitable place has been found
for it by cleaning away the rubbish.

PUBLIC DEPARTMENT.

PROCEEDINGS of the MADRAS GOVERNMENT.

Read the following letter from Colonel J. H. BELL, Chief Engineer, to the Secretary to Government, Public Works Department, Fort Saint George, dated Sépakkam, 5th March 1860, No. 11020.

I have the honor to forward, for submission to Government, an Estimate amounting to Rupees 96, received from the Civil Architect, for filling up the Tank and removing the rampart curtain wall on the west side of the Native Military wards of the General Hospital.

Enclosures 3.

1 Letter from Civil Architect, No. 153, dated 17th February 1860, with 1 Enclosure and 1 Abstract estimate.

2. This Estimate was prepared in consequence of the representation of the Acting Physician of the General Hospital, communicated to the Civil Architect by the Superintending Surgeon Presidency Division. Dr. Blacklock reports that owing to the partial throwing down of the ramparts, and the excavations of the ground, with the intention, now abandoned, of forming a Tank on the west side of the Native Military wards, the ground has got into a very bad state, and by the drying up of the water in the pit, will soon be very offensive. He therefore suggests that the ground be cleared, the excavation be filled up, and the broken ramparts be opened up for free ventilation, which would not only be an immediate benefit to the Hospital, but would afford a convenient access from it to the new thatched buildings intended for the Natives.

3. The work proposed, Captain Hitchins states, can be completed within two or three weeks, and as the Estimate for the same has been examined in this office and found to be correct, I have to request the sanction of Government for its execution from the general funds at the disposal of the Civil Architect.

Transferred to the Public Department.

(Signed) C. G. MASTER,
 Deputy Secretary to Government.

8th March 1860.

ORDER THEREON, 16th March 1860, No. 384.

The Government sanction the work proposed at the estimated outlay of Rupees (96) ninety-six, to be defrayed from the general funds at the disposal of the Civil Architect.
