*Proceedings of the Madras Government, Public Works Department,
for the month of March 1860.*

No. 111. Read the following Proceedings of the Madras Government in the Marine
Department, dated 20th March 1860, No. 117:—

Sanctioning the Estimate of Rupees 470, for constructing a
Cage to enclose the Lantern on the Santapilly Rocks, and
calling on the Chief Engineer to report what is the state
of the Port Fund at Vizagapatam. } (Vide Marine Proceedings from 11th to 20th
March 1860, No. 27-28.)

No. 112. ORDER THEREON, 29th March 1860, No. 653.

Ordered to be recorded.

(Signed) J. D. BOURDILLON,
Secretary to Government.

MARINE DEPARTMENT.

PROCEEDINGS of the MADRAS GOVERNMENT.

Read the following letter from Colonel J. H. BELL, Chief Engineer, to the Secretary to Government, D. P. W., dated Sépákkam, 5th March 1860, No. 11028.

I have the honor to forward herewith a plan and estimate amounting to Rupees 470 for a cage to enclose the Santapilli lantern in the District of Vizagapatam.

Enclosures 11.

1 Letter from District Engineer, Vizagapatam, 25th October 1859, No. 642, with 2 Enclosures.

1 Letter to Superintendent of Marine, 18th November 1859, No. 7396.

1 Do. from Superintendent of Marine, 30th November No. 4730.

1 Do. to District Engineer, Vizagapatam, 7th Decr. 1859, No. 8156.

1 Do. from District Engineer, with 1 Plan and 1 Estimate, dated 23rd December 1859, No. 851.

1 Letter to Superintendent of Marine, 20th February 1860, No. 10485.

1 Do. from do 24th do 1860, No. 951.

2. The cage in question is required to enable Lascars to clean the reflectors and replenish the lamps with oil during strong winds. At present for want of such covering the lights are frequently blown out during the above operation, constant cleaning of the reflectors being required owing to the lamps smoking, much the result of bad oil, and insufficient draught of air through the lantern; and there being no access to the lantern except by opening the shutters.

3. The plan of the cage has been prepared in communication with the Superintendent of Marine, who approves of the design, and the rates allowed in the estimate have been examined and found correct.

4. As the District Engineer has no funds available for carrying out the work during the current official year, I recommend that it may be sanctioned for execution from the general funds of the District after the 1st May next.

ORDER THEREON, 20th March 1860, No. 117.

The Honorable the Governor in Council sanctions the estimate, amounting to (470) four hundred and seventy Rupees, for constructing a cage to enclose the lantern on the Santapilly rocks.

2. The Chief Engineer should, however, as directed by Order of 2nd December 1859, Marine Department, No. 610, have reported what is the state of the port fund at Vizagapatam that it might be determined whether the present charge should or should not be charged to that fund.

This information he will now supply.

(True Extract.)

Chief Secretary.

To the Chief Engineer.
