*Proceedings of the Madras Government, Public Works Department,
for the month of January 1860.*

No. 134. Read the following letter from Lieutenant-Colonel J. H. BELL, Chief Engineer;
to J. D. BOURDILLON, Esq., Secretary to Government, dated 6th January 1860,
No. 8870.

I have the honor to submit for the consideration of Government, a case of notice of ejection issued by the Officer Commanding 3rd

1 Original letter from the Special Executive Engineer, Jackatalla, No. 261, dated 22nd Dec. 1859 with 1 enclosure. Battalion of Her Majesty's 60th Rifles at Jackatalla.

2. The building in question was built some time ago by one of the subordinates employed on the Jackatalla works, and when he had resided in it for some time, he afterwards sold the house to the Apothecary in medical charge, and it is now rented by one of the subordinate officers employed on the works.

3. This small house is certainly situated within the limits of the cantonment and, therefore, I suppose in the strictest interpretation of military regulations, may come within the authority of the Officer commanding the station, but it was never intended for and never has been an Officer's dwelling, it is simply an Overseer's quarters, built there with the special purpose of being in the immediate vicinity of the works, and I am obliged to object for the interests of Government, to this summary ejection of which notice has been given, as the removal of the present tenant, an Overseer, may be exceedingly detrimental to the progress of the general works at Jackatalla.

No. 135. ORDER THEREON, 9th January 1860, No. 66.

Referred to the Military Department for consideration.

(Signed) T. PYCROFT,
Chief Secretary.

Military Sir,

Enclosures 2.
Original letter from
the Special Executive Engi-
neer, Secunderabad, dated 22nd Nov 1859
with
1 enclosure.

I have the honor to submit for the con-
sideration of Government a case of notice of ejection issued by
the Officer Commanding 3rd Battalion of Her Majesty's
60th Rifles at Secunderabad.

2. The building in question was built some
time ago by one of the subordinates employed on the Secun-
derabad Works and when he had resided ^{in it} for some time,
he afterwards sold the House to the Apothecary in Medi-
cal charge, and it is now rented by one of the subordinate
Officers employed on the Works.

3. This small House is certainly situated
within the limits of the Cantonment and therefore I sup-
pose in the strictest interpretation of Military Regulations
may come within the authority of the Officer Commanding
the

the Station, but it was never intended for and never has
been an Officers Dwelling, it is simply an Overseer's Quarters.
built there with the special purpose of being in the immedi-
ate vicinity of the Works, and I am obliged to object for
the interests of Government to this summary decision of
which notice has been given as the removal of the present
Tenant an Overseer, may be exceedingly detrimental to the pro-
gress of the General Works at Lackatalla.

*Proceedings of the Madras Government, Public Works Department,
for the month of January 1860.*

No. 132. Read the following Proceedings of the Board of Revenue, dated 24th December 1859, No. 5122.

Read again letter dated 12th May 1859, No. 161, from the Collector of Chingleput, reporting the bad state of the Carangooli taluq kachahri, and soliciting permission to submit an estimate prepared by the District Engineer for its re-construction.

(In Consultation 13th May 1859, No. 2162.)

Read also letter dated 17th June 1859, No. 205, submitted in Consultation 30th November 1859, No. 5939, mitting an estimate for Rupees 9,400; and that dated 29th November 1859, renewing the application for a new kachahri.

(In Consultation 20th June 1859, No. 2873.)

Resolved that the letter above recorded be submitted for the consideration and orders of the Honorable the Governor in Council.

2. From the first of the letters above recorded, it appears that the present taluq kachahri at Madarantakam is a "most inconvenient and ill-adopted building, small, dark, the walls cracked and falling down, only supported by props, and said to be infested with vermin." It appears further that many of the palmyra rafters are bad, being cracked and broken, and that the building is in such a condition generally, that the District Engineer does not consider it worth repairing. Under these circumstances, the Board are of opinion that a new kachahri ought to be erected in lieu of the old building.

The arrangements connected with the re-adjustment of the taluqs have hitherto delayed the submission of the estimate for sanction, but that question being now settled without affecting Madarantakam as a kasba station, the Board beg to recommend for the favorable consideration of Government, the application submitted by the Collector for a 3rd class kachahri at that place, at an estimated cost of Rupees 9,400.

The proper channel for the submission of the project is perhaps the Chief Engineer, but as the plan and estimate are standard ones already considered and approved by Government, in regard to the details and amount, and as the time for sending up the budget to the Government of India is rapidly approaching, the Board have deemed it advisable to submit the project direct to Government with the view of saving time, and beg that, if approved, it may be included in the budget for the ensuing year for execution in May next.

(Signed) J. D. SIM,
Secretary.

No. 133. ORDER THEREON, 9th January 1860, No. 65.

The Government do not doubt that a new taluq kachahri is wanted at Madarantakam; but under the strict limitation of expenditure on public works in the year 1860-61 they are unable to allot for that object any part of the small sum assigned to this Presidency.

2. The District Engineer will be instructed to execute such repairs to the building as may be absolutely necessary for its safety; and as soon as funds shall be forthcoming, the erection of a new building will be sanctioned.

(Signed) T. PYCROFT,
Chief Secretary.
