Having been informed by the Engineer Officers at Jackatalla that they are about to stop work in their brick-fields, having no occasion for more bricks, I beg that, in anticipation of the construction of the European Penitentiary, they may be immediately directed to prepare, say 200,000 of brick of the best quality in the field most convenient to that work, as this precaution will in all probability save much expense and delay hereafter.

2. If the work has to be re-commenced, the Government would lose all the advantage of the Establishment.
