*Proceedings of the Madras Government, Public Works Department,  
for the month of April 1860.*

---

No. 61. Proceedings of the Madras Government, dated 4th April 1860, No. 705.

In paragraph 2 of his letter of 20th January last \* No. 9,361, the Chief Engineer informed the Government, that the intention of the late Chief Engineer, in indenting on the Home Government for twenty Printing Presses, was to supply one to each District Engineer.

\* Recorded in Order 3rd March 1860, No. 472.

2. The Government have already remarked that a District Engineer has no proper use for a Printing Press. So far as these Officers may have occasion for printing they may get it done at the Collectors Presses without putting the public to the expense of two sets of Presses. The two Presses ordered by the Secretary of State out of the twenty indented for, will therefore be transferred, on arrival, to the Superintendent of the Government Press, to be disposed of under order of Government, as required.

(Signed) J. D. BOURDILLON,  
*Secretary to Government.*
