*Proceedings of the Madras Government, Public Works Department,
for the month of April 1860.*

No. 64. Read the following Petitions from Yégámbara Pillai late Sub-Overseer in the District of Chingleput:—

Appeals against the Proceedings of the Chief Engineer,
Department Public Works, directing his dismissal from the } (Here enter 24th February 1860.)
Department, and prays for restoration to his office.

No. 65.

Appeals against the Proceedings of the Chief Engineer,
Department Public Works, directing his dismissal from the } (Here enter 15th March 1860.)
Department, and prays for restoration to his office.

No. 66. ORDER THEREON, 4th April 1860, No. 707.

Yégámbara Pillai is a Government servant of many years standing. The only specific charge brought against him is, at the utmost, one of carelessness;* and it is possible that the District Engineer's instructions were not clearly explained to him. The Governor in Council is of opinion that dismissal is too severe a sentence; and they desire that a further trial shall be given to the Petitioner. It would be better that this should be in another District, but it should be one with the language of which Petitioner is familiar; South Arcot would be suitable.

(Signed) J. D. BOURDILLON,
Secretary to Government.

The Chief Engineer D. P. W.

The humble petition of Agambara Pillay
Maramut Sub Overseer in the Taluk of
Chingleput and Thorapoor in the Zillah
of Chingleput.

Respectfully Sheweth:

That your petitioner has served the
Government in the capacity of a Maramut Maistry
in the Zillah of Chingleput for the period of 20 years
of which 12 years your petitioner held the post of 1st Class
Maistry and executed several works entrusted to his
care to the entire satisfaction of the then Collectors.

Subsequently since the Maramut Department
has passed into the hands of the District Engineer, that
officer was also for sometime kind to your petitioner, but
to his great misfortune in 1856 the District Engineer caused

that your Petitioner is reported

The humble petition of Agambam Pillay
Sub Overseer in the & P. W.

Most Respectfully Sheweth.

That your poor Petitioner
has (for no reasonable cause
whatsoever) come under the displeasure of
Captain Maury & C. of Chingleput, who
has represented that your Petitioner is unable
to continue discharging actively the duties
of a Sub Overseer. Your petitioner begs
respectfully to represent that he is ready and
able to work with satisfaction under any other
Officer for a further period of at least 10
years and earnestly solicits that your Honor
will be pleased to transfer him to any
other District and if, after the expiration of
3 or 6 months your Petitioner is reported

be unequal to his duties he will then abide
your Honor's decision if it be given in favor of his situation.
It will not be difficult for you poor Platoon to
be considered in favor of a Surgeon, when the District
Engineer thinks so. It is prepared however to
submit himself to the strict scrutiny of any
Medical Officer.

His transfer, being other District
from which periodical reports may be called for
as his capabilities of enduring fatigue and
discharging his duties correctly, is your humble
Platoon's prayer.

Enclosures 2
2^d Station

It appears from the report of the
District Engineer of Chingalput of the 10th January
1860 that Sub-Quartermaster Agambam Kelley who
in June last ordered to Superintend the execution
of certain work to the Chingalput Tankbund,
and that on a personal inspection of the work
the District Engineer found it being so badly con-
-structed that he fined the Sub-Quartermaster 5 Rupees
and at the same time instructed him how
the work was to be done. These instructions
it appears were only carried out to a small
extent, the remainder of the work being of
the old style, which was condemned, and for
which a fine was inflicted on the Sub-Quartermaster.

It was intended to fine him a second time for this neglect of orders but by an oversight this was omitted to be done -

2. The Sub-Division is also stated to be very forgetful of and inattentive to the orders given to him, so much so that he requires continually looking after in any work entrusted to him for execution. On these grounds the District Engineer recommends his dismissal.

3. In his letter of the 4th February 1860. No. 1685
the District Engineer forwards a Medical Report upon the Sub-Division, which describes him to be in a good state of health and fit for further service, and as the Chief Engineer is therefore precluded from recommending him for a pension or gratuity, and as on no account can an individual reported to be disqualified in one district be transferred to another, he has no other alternative but to order his dismissal from the Department -

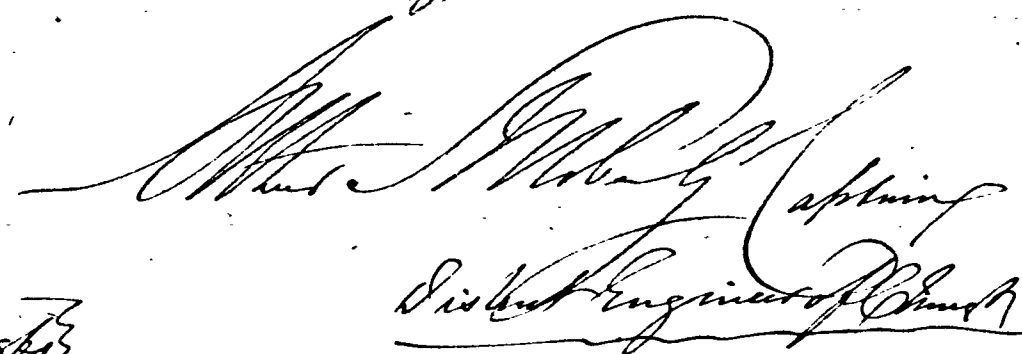

4. Resolved that the District Engineer of Chingalput be requested to communicate these Proceedings to Sub-Division Aganaham Pillay, whose Petitions are herewith forwarded for the purpose of being returned to him. -

5. Resolved also that a copy of these Proceedings be communicated to the Civil Auditor for information

Jes Jes Jes

The humble petition of Yagambram Pillay
late Sub Overseer in the District
of Chingleput

Honored Sir:

With due respect and submission, I beg leave
to bring to your honors kind notice the following my aggrieved
case, in the confident hope, that you will take the same into your
just and favourable consideration and grant me redress.

I have served in the Maraimut Dept^t in the Zillah
of Chingleput for the consecutive period of 23 years during which
I have got several works of importance executed under my su-
perintendence with very great care and attention to the entire satis-
faction of the several Collectors & Civil Engineers of the above Zillah.
I have likewise served under Capt^t Moberly the Dist^t Engineer with
the same care and diligence & superintended the execution of several works
entrusted to my charge in conformity with his orders. But unfortunately
for me, certain persons in the above district who bear illwillings towards
me, continued to give false accounts of me to Capt^t Moberly, prejudicial
to my prospects. I have thus lost the kind esteem of my employer who
continued to show his displeasure against me.

In the month of June last I was ordered to superin-
tend the execution of certain work to the Chingleput Tank bund &
while I was getting on with the work at the above station Captain
Moberly personally inspected the same, and fined me 5 Rs when
I requested him to inform me how I have incurred his displeasure
he told me that I should have got the supply of new stones & caused the
large old stones with new ones to be fixed from the bottom of the Tank bund
whereas

possible

whereas, I have commenced the work by displacing the old stones and
fixing them again as invariably observed in the construction of Tank
bund & to make use of the old stones as the work was progressing. I
have however completed the construction of the work in conformity
with the order of the Dist. Engineer. I have besides the above work
supervised the construction of the Lepet Hospital & a Tannah
Choultry at the same station the former at the cost of 9400 Rs and the
latter at 660, with which my employer found no fault. But
unfortunately for me Capt. Moberly, who was capriciously instructed
by my opponents & who always had in mind to remove me from the
service & see my post filled by some of his favorites, submitted a
disatisfactory report against me to the Chief Engineer recommending
my dismissal from the service & getting me pensioned. But
the Chief Engineer with a view to recommend me to Government
for pension having called on the Dist. Engineer to submit a
medical report, I was accordingly ordered to appear before a
Medical Officer at St. Thomas Mount who gave me a report
that I was in a good state of health & fit for further service. The
Dist. Engineer forwarded the same to the Chief Engineer who there-
upon ordered my dismissal from the Department.

In conclusion most Honored Sir, I most
respectfully beg leave to offer the following explanation with
reference to the accompanying Ex^t from the Proceedings of the
Chief Engineer in the Department of Public Works dated 11th Feb 1865
No 10218.

Adverting to the 1st Para wherein it was stated
that these instructions it appears were only carried out to a small
extent, the remainder of the work being of the old style which was
condemned & for which a fine was inflicted on the Sub. Engineer.
I most respectfully beg leave to state that I have duly carried
out the orders of the Dist. Engineer in the construction of the
above Tank Bund, by fixing large old stones with the new ones

35
estimates of the work which was prepared by me alone. The
Tank bund work is very strong and good and not condemned as
observed by the District Engineer. The District Engineer has never
intended to give me a 2^d time for neglect of order as observed by
him.

Adverting to the 2^d Para I most respectfully beg to
state that I was never forgetful and inattentive to the orders given to
me and no person continually looked after in my work entrusted to
me for execution, whereas ever since I was transferred to the
District Engineer, a period of 4 years, I have under my own super-
vision, executed several works of importance with credit to myself.

Adverting to the 3^d Para wherein the Chief Engineer
observed that he is precluded owing to the Medical report forwarded
by the District Engineer from recommending him for a Pension or Gratuity
and as on his account the individual is fit to be disqualified
in one District be transferred to another, he has no other alternative
but to order his dismissal from the Department. I most respectfully
beg leave to represent that, I have presented two applications to the
about functions, bringing to his notice the facts of my whole case
and soliciting him to transfer me to another District on trial at
least for 6 months but he without taking any notice of them,
issued orders for my removal from the Department (without any
consideration for my past services of 23 years) apparently confiding
on the report of the District Engineer.

Under the above unpleasing circumstances Most
Honorable Sir, I have most respectfully presumed to lay the whole
of my case before your honor in Council & most submissively request
your just and impartial Government will be graciously pleased
in consideration of my long and faithful services extending over a
period of 23 years, to institute a mature and proper enquiry into
my case & be so munificent as to issue necessary orders for the
restoration of my duty, transferring me at the same time to another
District, pending the report of the Engineer of that District &
should Government be ultimately dissatisfied with the reports

possible

15th of 1860

To
 The Honorable Sir Charles Edward Trevelyan
 K. C. B. Governor & President in Council
 of the Hon. E. I. Co.
 The humble petition of Yagambra
 Pillay late Sub. Overseer in the
 District of Chingleput.

Honorable Sir,
 With due respect and submission I beg
 leave to bring to your honors kind notice the following my
 aggrieved case, in the confident hope, that you will take the
 same into your just & favorable consideration & grant me redress.
 I have served in the Marahmut Department
 in the Zillah of Chingleput for the consecutive period of 23 years,
 during which I have got several works of importance executed in
 my superintendence, with every great care & attention to the
 entire satisfaction of the several Collectors and Civil Engineers
 of the above Zillah. I have likewise served under Captain
 Hoberly the District Engineer, with the same care & diligence
 and superintended the execution of several works entrusted to my
 charge, in conformity with his orders. But unfortunately for me,
 certain persons in the above District, who bear ill feelings towards
 me, continued to give false accounts of me to Captain Hoberly,
 prejudicial to my prospects. I have thus lost the kind esteem of
 my employer, who continued to shew his displeasure against me.
 In the month June last I was ordered
 to superintend the execution of certain work to the Chingleput
 station, and while I was getting on with the work at the above
 station, Capt. Hoberly personally inspected the same & fined me
 5 Rs. when I requested him to inform me how I have incurred
 his displeasure, he told me that I should have got the supply
 of new stones & caused the large old stones with new ones to be
 removed, and it is
 possible

of my new Employer, I may at once be removed from the Department
 without any consideration for my past services.
 With respect to my usefulness in the Marahmut
 Department, while under the Collector Government may be pleased
 to satisfy with the report of the above authority, which is on the
 records of the District and Chief Engineer's Offices.

I further most respectfully beg leave
 to state that I have been brought up exclusively in the Marahmut
 Department and am unacquainted with any other profession
 and it will be very hard for me to support myself and large
 family without any means for subsistence.

True Extract from the Proceedings
 of the Chief Engineer in the Department of Public Works under
 date the 11th February 1860, A. 10218 and my original
 applications to the Chief Engineer are herewith submitted for
 the perusal of your honor in Council.

And your Petitioner as in duty bound
 Shall ever pray
 Obedient Servant
 Yagambra Pillay

fixed from the bottom of the Tank-bund, whereas, I have commenced the work by displacing the old stones & fixing them again, as invariably observed in the construction of Tank-bunds, and to make use of the old stones, as the work was progressing - I have however completed the construction of the work in conformity with the order of the District Engineer. I have besides the above work superintended the construction of the Life Hospital and 2 Tannah Choultries at the above station, the former at the cost of 940 Rs. and the latter at Rs 660, with which my Employer found no fault. But unfortunately for me, Capt. Moholy who was sufficiently instructed by my opponents and who always had in mind to remove me from the service and see my post filled by some of his favorites, submitted dissatisfactory report against me to the Chief Engineer recommending my dismissal from the service and getting me pensioned. But the Chief Engineer with a view to recommend me to Government for pension having called on the District Engineer to submit a medical report, I was accordingly compelled to appear before a Medical Officer at St. Thomas Mount, who gave me a report that I was in a good state of health and fit for further service. The District Engineer forwarded the same to the Chief Engineer who thereupon ordered my dismissal from the Department.

In conclusion, Most Honorable Sir, I must respectfully beg leave to offer the following explanation with reference to the accompanying Certificate from the Proceedings of the Chief Engineer in the Department of Public Works dated 11 February 1860 No. 10218.

Adverting to the 1st para, wherein it was stated that these instructions it appears were only carried out to a small extent, the remainder of the work being of the old style which was considered & for which a fine was inflicted on the S.O. I most respectfully beg leave to state, that I have been by carried out the orders of the District Engineer in the construction of the above Tank-bunds, by fixing large old stones with the new ones at the bottom and the small stones over them, the old stones at third portions and the new ones at one third, agreeably to the

estimate

at the bottom & the small stones over them, the old stones at third portions & the new ones at one third, agreeably to the estimate of the work which was prepared by me above. The Tank-bund work is very strong and good and not condemned as observed by the Dist. Eng. The Dist. Engineer has never intended to fine me a 2^d time for neglect of order as observed by him.

Adverting to the 2^d Para I most respectfully beg to state that I was never forgetful & inattentive to the orders given to me and no person continually looked after my work entrusted to me for execution, whereas ever since I was transferred to the Dist. Eng. a period of 4 years I have under my own superintendence executed several works of importance with credit to myself.

Adverting to the 3^d Para wherein the Chief Engineer observes that he is precluded owing to the Medical report forwarded by the Dist. Eng. from recommending him for a pension or gratuity, I was on no account can individual at reported to be disqualified in one District be transferred to another, he thus has no other alternative but to order his dismissal from the Department. I most respectfully beg leave to represent that, I have presented two applications to the above Functionary bringing to his notice the facts of my whole case & soliciting him to transfer me to another Dist. on trial at least for 6 months but he without taking any notice of them issued orders for my removal from the Dept. (without any consideration for my past services of 23 years) apparently confiding on the report of the District Engineer.

Under the above unpleasing circumstances Most honored Sir, I have most respectfully presumed to submit the whole of my case to your honor's kind consideration and
