Haemorrhoids

C. A. Roberts Esq. Sub-Collector. Coimbatore

Residence in India

Habits - Abstemious

Temperament - Nerv. Sanguine

4th February 61. Came in from Baroda, on the 2nd Instant, for medical advice, in account of Haemorrhoids. Has suffered from this painful ailment, for more than three years. For the last 12 months, has been subject to great inconvenience, and suffering from internal piles, which generally protruded after the slightest amount of exercise, especially in the evening; and after every motion of the bowels. After which they required to be forced back. On the 18th of December last, had a severe "fit of piles". The surrounding parts became swollen, and painful, and the Haemorrhoids could not be returned, and were much enlarged. Since then, has been slowly improving. Not much, however, for the last week. General habit of body not strong, and suffered much from debility during the last hot weather. Suffers much from constipation. Has been taking Castor oil, in small doses. and an electuary made up with Conf. Senna; Sulphur. Pot. Bitarb. Cont. & Aurant. Symp. Morphia draughts;

casually, at bed time - Cold water, and astringent lotions externally.

The Haemorrhoid is now protuberant - about the size of a large marble: and is of a deep red colour.

Ordered to take the Pil: Rhei: Co. and small doses of Pil: Hydrag: about twice a week - also the Ung: Gallæ: et: opii: diluted to be applied at bed time to the pile.

20th March. Mr Roberts came in to day from Baroor. There is slight amelioration of his former symptoms. The Haemorrhoid is only occasionally protruding, and the bowels are more regular in their action. Is still obliged, however, to rest in the horizontal posture, during some portion of the day, and finds it almost impossible to take riding exercise. After every motion of the bowels, or after walking, or moving about, is obliged to force the tumour back within the sphincter. As this gentleman suffered so much during the last hot weather, and as I do not think it likely that his present weakly state of health will be improved by a longer stay in this climate, I recommend that he should proceed to England, for further treatment.

Dr. Leslie Med: Officer at Coonoor and Asst. Surgeon Colebrooke have both attended Mr Roberts, and are of opinion that a change of climate is decidedly necessary for him and have recommended his proceeding to England. I accordingly have no hesitation in

granting the following certificate -
I A. A. Newton M.D. Civil Surgeon of Coimbatore do hereby certify that Mr. G. A. Roberts of the Civil Service is in a bad state of health, and I solemnly and sincerely declare that according to the best of my judgment, a change of air is essentially necessary to his recovery and do therefore recommend that he may be permitted to proceed to Europe for a period of 15 months

Coimbatore
