Proceedings of the Madras Government, Public Works Department, 5th August 1861.

No. 81. Read the following Proceedings of the Board of Revenue, dated 24th June 1861, No. 3,277 :—

Read the following letter from A. HATHAWAY, Esq., Collector of Bellary, to W. HUDLESTON, Esq., Secretary to the Board of Revenue, Chepauk, dated 17th May 1861, No. 96.

SIR,

1 I have the honor, with reference to the Proceedings of the Board of Revenue, dated 9th ultimo, No. 1,847, to report as follows on the points noticed by Government in their Order of the 25th February last, No. 374.

2. With regard to paragraphs 1 and 2, I would observe that the cultivation of a larger quantity of Inám land is attributable to the Inámdárs incurring an expenditure for turning water into the channel, while the Ryots holding Government lands did not do so, in consequence of the high assessment, which, however, having been reduced in the latter part of Fasli 1267, the Ryots were induced to increase the cultivation in subsequent Faslis, as shown in a statement which accompanied my letter of the 24th December last, No. 218.

3. As I concur in the proposition contained in paragraphs 3 and 4 of the said Proceedings, I have exhibited in the accompanying revised statement the proportional cost of repair to be borne by the Jodi Inámdárs, after deducting the amount of Jodi from the Taram assessment.

4. The above Statement further exhibits all the particulars required by Government. The amount of Rupees 383 is the assessment of Service Inám, which alone is subjected to Jodi, viz., Rupees 79-0-0.

5. In printing the particulars of Inám land given under the statement which accompanied my letter of the 24th December last, *Service* Inám has been misprinted as *Serva* Inám ; thereby originating the remarks in the concluding paragraph of the Proceedings under reply.

	RS.
* Free Inamdars	221
Jodi do.	175
	396

6. Of the estimated cost of Rupees 1,250, the proportion to be borne by Government is Rupees 854, leaving a sum of Rupees 396 to be paid by the Inámdárs.*

In Cons. 26th February 1861, No. 1,219.

1. Submitted for the information of Government, with reference to their Order dated 25th February 1861, No. 374, Public Works Department.

2. It will be observed that out of the estimate of Rupees 1,250 for the Moka Irrigation Channel, &c., the Collector proposes that Rupees 854 shall be borne by Government and the remainder by the Inámdárs of Moka and Chagamur. This is in conformity with the view expressed by Government in paragraphs 3 and 4.

3. The error referred to in paragraph 5 of the Collector's letter did not originate in the Press, but existed in the Collector's own original letter, as appears on inspection.

4. The Board have already, in their Proceedings of 14th March 1861, No. 1,407, expressed their opinion that Service Inámdárs, whose Ináms are the remuneration for their services, should not be called upon to bear a share of the cost of improving the Irrigation Channels of their village.
