Proceedings of the Madras Government, Public Works Department, 6th August 1861.

No. 105. Read the following Endorsement of the Chief Engineer, dated Chepauk, 26th July 1861, No. 3,168 :—

Read the following letter from Captain E. HEMERY, District Engineer of Cuddapah, to Lieutenant-Colonel A. J. M. BOILEAU, Deputy Chief Engineer, Central Circle, dated Madanapalli, 24th July 1861, No. 191.

SIR,

1. I have the honor to solicit sanction for the accompanying estimate amounting to Rupees 880, for repairing the road over the Guvalcherru Ghát in this District.

2. Mr. George, 2nd Assistant District Engineer, reports that on the 19th ultimo, a very unusually heavy fall of rain damaged this road so seriously that the annual maintenance allowance for the Ghát, viz., Rupees 1,000, will not enable him to repair the road and afterwards to keep it in good order.

3. The rain was so heavy that large boulders were washed down the hill side on to the road, which is cut into wide and deep gullies ; on the north side of the Ghát the gravel and metalling have been entirely washed away although there are water tables at every 50 yards ; the apron of one of the tunnels on the Ghát intended to carry the water clear of the revetment has been partly destroyed, and its immediate restoration is emergently necessary ; under these circumstances, I have the honor to request permission to expend Rupees 880 in repairing the Ghát out of the general funds allotted to this District for the current official year.

4. The estimate has been countersigned by the Collector.

1 Estimate.

1. Submitted to Government with a recommendation that under the circumstances the estimate Rupees (880) eight hundred and eighty, may be sanctioned out of the general funds at the disposal of the District Engineer for the current official year.

2. The estimate has been examined and found correct.
