Mr. Cunliffe states that the great quantity of work in his Office precludes his establishment from preparing these Registers. He requests, therefore, that the sanction of Government may be obtained for the entertainment of an extra English Writer and Gumáshta for a period of three months, the former on a salary of Rupees 14, and the latter at Rupees 12 per mensem.

Sir,

I find that the Irrigation Register, returned with your Proceedings of the 13th Ultimo, No. 11980, have been incorrectly prepared on other than the points mentioned by you.

2. About half the Register was prepared by men not now in the Office, and the remainder by the present Maramat Gumasta, who has lately taken up those duties, and who was ignorant as I was myself, of the Circular of 1859 alluded by you.

3. For the first portion of the Register,

column

(5)

column 12 has been incorrectly filled up, no orders having apparently been sent into the Talugs to include the Tirva Jaste in the assessment.

4. The Register is for Fusli 1261 to 1265, and another period of five years have elapsed; I think, therefore, that it will be preferable to prepare Registers for 1266 to 1270, and orders have been issued to the Talugs to forward the requisite information, as soon as possible.

5. If you will send me a Ream of blank form of Register, I will have two copies prepared, according to your present instructions, though I cannot promise them under two months, from the date of receipt of the details from the Talugs.

I have the honor to be &c

requisite, that both of the "Irrigation Registers" for the
