PUBLIC DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following letter from Lieutenant Colonel H. W. HITCHINS, District Engineer, Presidency; to the Deputy Chief Engineer Central Circle, dated Madras, 28th June 1861, No. 356.

I have the honor to forward copy of a letter from the Visiting Members of the Monegar Choultry, and with reference thereto, to state that on inspecting the well referred to, it was found that the lower portion of the brick lining had fallen in and consequently the earth behind had also fallen, thereby choking up the well, and necessitating the sinking of another well, for which I have the honor of submitting for early sanction the accompanying Estimate amounting to Rupees 196.

I beg to state that the above work can be completed within six weeks.

From the Visiting Members, Monegar Choultry; to Lieutenant H. TULLOCH, District Engineer, Presidency, dated 30th May 1861.

We have the honor to transmit copy of a letter from the Superintendent of the Monegar Choultry reporting the filling in by earth of a well, and of a wall and cistern near it, requiring repairs and to request, as suggested by him, that you will have the goodness to cause the well, &c., to be inspected and the cost of the necessary repairs included in the Estimate for the general repairs, &c., of the buildings of the Institution.

(Signed) A. McCALLY, Colonel,
(,,) T. RAMACHENDRA ROW,
Visiting Members.

From Mr. R. W. THORPE, Superintendent Monegar Choultry; to the Visiting Members for the month of May 1861, dated Monegar Choultry, 30th May 1861.

I beg to report that the well in the Choultry kitchen has been observed to be gradually filling in with earth and the water becoming less and unfit for use. The wall and cistern also near the well are much damaged and require repairs, I therefore beg that you will be pleased to request the District Engineer Presidency to cause the well, &c., to be examined by some person on his establishment and that the cost of repairs be included in the Estimate now under preparation at his Office for the repairs ordered to be made to the whole of the buildings of the Institution.

(True Copy.)
