No. 216. Read the following Proceedings of the Board of Revenue, dated 6th August 1861, No. 4,235 :—

Read the following letter from Lieutenant-Colonel W. H. HORSLEY, Chief Engineer, to the President and Members of the Board of Revenue, dated Chepauk, 5th August 1861, No. 3,578.

GENTLEMEN,

1. In reply to your Proceedings No. 4,199, dated 3rd August 1861, I have the honor to inform you that of the 24 copies of Sir Proby Cautley's work forwarded to you with my letter of the 20th July 1861, No. 2,921, two copies were intended for the Governor of the French Settlements and His Highness the Rájá of Travancore respectively. These copies were sent to your Board under the impression that it was the wish of Government that you should transmit them to their destination, but since then a Memorandum has been received from the Secretary to Government, requesting me to forward the two copies in question to his Office, from which I infer that the Government desire to despatch the works themselves.

2. I request therefore, that you will be good enough, with a view to save time, to send the two copies direct to the Secretary to Government, who will be informed accordingly.

Ordered that two copies of the work alluded to in the foregoing letter be forwarded to the Secretary to Government, as requested by the Chief Engineer.
