Proceedings of the Madras Government, Public Works Department, 20th August 1861.

No. 322. Read the following letter from Lieutenant-Colonel W. H. HORSLEY, Chief Engineer, to J. D. SIM, Esq., Secretary to Government, dated Chepauk, 17th August 1861, No. 4,024 :—

SIR,

As the 50 Rain Guages, Bayley's pattern, made up by this Department on the sanction accorded by Government in their Proceedings, dated 18th March 1861, No. 550, have, with the exception of 14, been issued to the Department, and as the Board of Revenue have authorized the supply of 31 Guages to the Collectorates marginally noted, I have the honor to request the sanction of Government to my having made up 100 of Bayley's Rain Guages at a cost of Rupees 2 each, to meet the requirements of the Revenue Department which promise to be large, judging from the present demand of four Collectorates only amounting to 31 Guages; I would further solicit the sanction of Government that I may be permitted to keep always on hand a supply of these Guages (say 25) to meet the requirements of the service, instead of having to trouble Government whenever a supply is required to be made up.
