366-367

Dated 23-8-1861.

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department, 23rd August 1861.

No. 366. Read the following letter from Lieutenant-Colonel W. H. HORSLEY, Chief Engineer, to J. D. SIM, Esq., Secretary to Government, dated Chepauk, 9th August 1861, No. 3,738 :—

SIR,

1 Letter from District Engineer, No. 57, dated 24th June 1861.
2 Abstract Estimates.

1. With reference to the Proceedings of Government, No. 261, dated 8th February 1861, I have honor to forward two supplemental estimates amounting together to Rupees 641, for the undermentioned works in the District of Tanjore, viz :—

	RS.
(1.) For supplying pillars for the support of the beams on the western side of the eastern room of the upper story in the Surja Mahal...	421
(2.) For repairing the verandah to the Treasury	220
Rupees	641

2. The original estimate for the Treasury provided only for cutting and fixing old timber, to be obtained from certain dismantled buildings in the small Fort, but the pieces of timber so obtained being of too small a scantling, they cannot be made use of as rafters, &c. Hence the necessity for the present supplemental estimate. The old materials of the dismantled buildings have, it would seem, been made use of by the Collector in erecting a building at Vellam, to afford accommodation for a portion of his establishment when he holds his Kacheri there.

3. The District Engineer reports,* that on examination it was found that the ends of the beams on which the roof of the eastern room of the upper story rests were much decayed, and that therefore the additional support provided for in the supplemental estimate† is absolutely necessary.

4. In carrying out the original estimate it has been found necessary to deviate from its provisions, as detailed in the last paragraph of Captain Oake's letter No. 57, dated 24th June 1861, but it is not anticipated that any excess over estimate will be caused thereby.

5. To avoid further delay, the District Engineer has directed Lieutenant Chrystie to obtain the required number of rafters, &c., and to complete the work in anticipation of sanction, which I trust will meet with the approval of Government.

6. The supplemental estimates have been examined and corrected in this Office, and I request that the Government will be pleased to sanction them, the amount Rupees 641, to be defrayed from the general funds at the disposal of the District Engineer for expenditure in 1861-62.

* No. 57, dated 24th June 1861.

† Rupees 421.

No. 367. **ORDER THEREON, 23rd August 1861, No. 1,609.**

	RS.
Surja Mahal..	421
Treasury Verandah	220
Rupees.. ..	641

1. Under the circumstances explained, the Government sanction out of the general funds at the disposal of the District Engineer of Tanjore in 1861-62, the two supplemental estimates submitted with this letter amounting together to Rupees (641) six hundred and forty-one, for certain work to the Surja Mahal and the Verandah of the Treasury.

Vide paragraph 2, of District Engineer's letter, 24th June 1861, No. 57.

2. The Government would wish to be informed of the Collector's answer to the inquiry of the District Engineer, as to what has been done about the wood which was calculated upon in the original estimate for the Treasury verandah.

(Signed) J. D. SIM,
Secretary to Government.
