Sir,

I have the honor to report to the
Board on the prospects of
the Season in this District.

The Wet dry and
Garden Cultivation raised
up to the end of September,
is given in the Margin,
in Comparison with that
raised to the correspond-
ing period of last year.

Almost all the Cane Crops have been harvested.

2. There has been no rain from the 1st of October, and consequently Peshawar Cultivation has been raised to a very limited extent, and the prices of grain are rising

3. The main river, Samba-poorney is very low, and there is no water in the pained Tanks. The Wet and Dry Crops already raised are languishing for want of water, but I trust we shall have the North East Monsoon, before long.

Trinevelly... } I have V^{ce}

Collector.

Ordered to be submitted for the information of Government.
