No. 358. Read the following Proceedings of the Board of Revenue, dated 9th April 1861, No. 1,836:—

Read letter from the Collector of Ganjam, dated 13th October 1860, No. 277.

(In Cons. 26th October 1860, No. 5,443.)

Read also the following letter from the same Officer, dated 22nd February 1861, No. 55.

1. In reply to the Board's Proceedings, No. 5,164, dated the 7th November last, I have the honor to report that the land in question bore an assessment of 10 Annas in the accounts: it has scarcely ever been cultivated being an elevated piece of ground of hard dry soil. I, therefore, proposed a quit-rent of 12 Annas an acre.

2. The average Shist of the District for dry lands is 1 Rupee an acre, the nearest fields pay this; but only waste lands actually adjoin this plot.

In Consultation 13th September 1860.

1. Submitted for the information of Government, with reference to their Order in the Revenue Department, No. 1,578, dated 12th September 1860.

2. The land in question is assessed in the accounts at 10 Annas per acre, and under the Freehold rules, the upset price should be twenty times this sum. The Collector, however, proposes 12 Annas per acre as the quit-rent; the District average for "dry" land being 1 Rupee per acre which is the rate for the adjacent fields, though those immediately adjoining the plot in question are waste.

3. The Board do not see any reason for departing in this instance from the Freehold rules: if, however, such a course be followed, they think the District average would be the most appropriate rate for adoption.

No. 359. ORDER THEREON, 20th April 1861, No. 901.

Authority is granted for the sale by auction of the piece of land referred to in the Proceedings of the Board of Revenue, of 4th September 1860, No. 4,034. Ten Annas an acre being the Taram assessment of the land, that rate should be adopted in fixing the upset price.

(Signed) J. D. BOURDILLON,
Secretary to Government.
