KSL

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following letter from the Secretary to the Board of Revenue:—

Submitting the Board's annual Report on the Settlement and Collection of the Revenue of this Presidency for Fasli 1269, *with the usual explanatory statements.* (Here enter 16th February 1861, No. 884.)

ORDER THEREON, 22nd April 1861, No. 907.

1. In this letter the Board of Revenue report on the Settlement and Collection of the Revenue for the Fasli year 1269, A. D. 1859-60.

2. The season is described as having been less favorable than that of 1268, in consequence of a general failure of rain after November. It is stated, however, that on the whole it was a favorable season in the eight Districts noted in the margin, though below the average in the remaining twelve. The tabular statement of the rain fall shows that in Bellary the quantity was only half of that of the previous year; and in several Districts, especially Kistna, Bellary, and Kurnool, the fall after October was very small.

Ganjam.	*Tinnevelly.*
Vizagapatam.	*Coimbatore.*
Nellore.	*North Canara.*
Madras.	*South Canara.*

3. Paragraphs 6 and 7 notice the sanitary state of the country as usual. His Excellency in Council regrets that he is unable to regard the figures attached to paragraph 7, and purporting to show the increase of vaccination in parts of the Madras Presidency, as at all trustworthy. Except in Malabar, the proportion of "successful" to "unsuccessful" is contrary to all experience, and the same care which reduced the figures in the excepted District, might be usefully employed elsewhere.

4. Prices (paragraphs 9 to 11) though in general below those of 1268, were still very remunerative. In three Districts only they ranged higher than in the preceding year, viz., in Kurnool, Malabar, and South Canara; in the last mentioned two Districts the rise exceeded 25 per cent. As regards the tabular statement appended to paragraph 10, the Government would remark that the proper mode of showing the rise of price is not to compare single years, but to take for comparison the average of a few years of medium prices of some time back. Thus the averages of Faslis 1256 to 1260, and of 1261 to 1265, might have been compared with subsequent years. In future Reports this plan should be observed.

Paragraphs 12 *and* 13.

5. The extent of land in occupation in the field Ryotwar Districts and parts of Districts (omitting North and South Canara and Malabar), is stated at 16,46,41,496 acres, of which 2,52,282 acres were uncultivated and struck out of the settlement. The area on which the settlement was made was 143,89,214 acres, bearing an assessment of 304,45,710 Rupees.

6. The net extent of land newly taken up in the year, deducting that relinquished or transferred, was 4,73,641 acres; the extent in the preceding year (Fasli 1268) was little less, being 4,59,812 acres. This progressive extension of occupation is gratifying, and indicates a healthy and flourishing condition in the rural population. This increase is noticed by the Board in paragraph 14. In every District, they say, there was an increase both in wet and dry cultivation, excepting only Bellary and South Arcot in the former, and Madras in the latter. It is also gratifying to observe that the extent of land under occupation remitted at the settlement, is greatly less in the year under report than in former years. This object of making the settlement as much as possible on the holding, should be steadily kept in view; though in unfavorable seasons it will still be necessary to depart from it to some extent.

7. It is observed that the area under occupation in Fasli 1268, as given in the present Report (paragraph 12), and in the Report for that year (paragraphs 24 and 25) differs by above a lac of acres. This discrepancy should be explained by the Board; it may possibly be owing to the area of the occupied land in the old Madras or Presidency District, being now newly shown in the returns.

8. It must be pointed out also that a serious error appears in the areas given in the comparative statement No. 5. The figures for Fasli 1269 represent the whole of the land in occupation, while those for Fasli 1268 represent the area taken as the basis of the settlement, excluding the "waste remitted." The heading indicates that the latter is what ought to be shown in the statement, and the figures for Fasli 1269 therefore are wrong. The same error is found in

statement No. 4. The Government are surprised to find such an error in a statement prepared in the Board's Office.

9. Paragraph 14 of the Report exhibits the entire settlement of all the Ryotwar Districts and parts of Districts, including North and South Canara and Malabar. The net result is a decrease of Rupees 7,14,951, in the settlement, notwithstanding the large increase of occupation above noticed. This decrease is owing in part to the reduction of assessment in Nellore, but chiefly to the abolition of the Ulungu system in Tanjore and Tinnevelly. The apparent loss from the latter cause is nearly 25 lacs of Rupees; but the Board point out (paragraph 15) that in consequence partly of remissions in past years of the amount of gain by price, and partly of the heavy fall in the price of grain in the year under notice in both the Districts concerned, the loss is in great part only nominal.

10. Paragraphs 17 and 18 of the Board's Proceedings reviewing the "remissions," which are given in detail in statements 6, 7 and 8, do not call for much remark. The Government are gratified however to observe a decided decrease under this head in comparison with previous years, and to receive the Board's assurance that the Collectors are paying attention to the subject.

Paragraph 19. 11. An increase of more than a lac of Rupees appearing under the head of "sundry items" arises from the water tax levied on Ináms, &c., in the Godavery and Kistna Districts. The decrease in the only other item considered worthy of remark, viz., "forest revenue" is explained as only apparent. His Excellency in Council is glad to find that the Forest Conservancy is spoken of as increasing in usefulness, and performing its part in adding to the revenues of the country: the amount realized during Fasli 1269 being more than two lacs and eighty-seven thousand Rupees. The primary and chief object of the Department, however, is not revenue but conservative.

12. In paragraph 29 the Board give a statement showing the entire land revenue of Fasli 1269 in comparison with that of the previous year. The result is that there is a net deficiency of Rupees 6,18,231.*

	Rs.
* *Fasli* 1268...	411,32,371
„ 1269	405,14,140
Decrease...	6,18,231

The larger part of this falling off is in the Ryotwar Districts; notwithstanding the facts already noticed, of a large increase of land in occupation, and a decrease in the occupied land struck out at the settlement. Some of the circumstances which turned the balance against the revenue have been already noticed, in particular the apparent heavy loss of revenue in Tanjore and Tinnevelly; to this is to be added the loss under this head of revenue by the restoration of two Zamíndárís to the proprietors.

13. In paragraph 26 the Board give a statement of the settled revenue of the ten years preceding Fasli 1269, from which it is seen that that of the last mentioned year exceeds the average by 36½ lac of Rupees. The Board point out also that if the revenue of Fasli 1268 is corrected to suit the circumstances noticed in the preceding paragraph, and also by omitting certain receipts not properly belonging to that year, it will fall short of that of Fasli 1269 by nearly six lacs.

Paragraph 27. 14. An increase of above twenty lacs of Rupees in the "sundry sources of revenue" is divided among all its branches, viz.:—

	Rs.
(1.) Ábkári...	1,48,170
(2.) Mohturfa....	19,539
(3.) Salt...	6,46,018
(4.) Sea Customs	10,76,965
(5.) Sayer	60,276
(6.) Stamps	54,406
Total...	20,05,374

More than half the increase, viz 10¾ lacs, is in Sea Customs, and is due to the operation of Act VII of 1859.

15. The salt transactions are noticed in paragraphs 29 to 32. The season was favorable for manufacture; and stocks being low at the beginning of the year, it was carried on vigorously, so that the quantity made was 2½ million maunds more than in the preceding year. Deducting increased sales to the extent of Indian maunds 89,581, and wastage, the quantity of salt in store at the end of the Fasli exceeded that remaining at its commencement by Indian maunds 12,24,878.

Maunds.	
83,34,713	
71,09,835	
12,24,878	

16. The salt wastage (paragraph 30) calls for some remark. Statement No. 14 shows that the wastage written off under sanction of Government amounts to Indian maunds 6,68,284: and further sanction is requested for writing off 2,35,200 Indian maunds on account of the present Fasli 1269. It is not explained to what years the former figures appertain. In commenting on this subject in their Order* on last year's (1268) Revenue Report, the Government remarked on the practice of retaining in the accounts wastage belonging to former years, and requested that care might be taken to prevent the recurrence of such an irregularity. It is presumed that the 6,68,284 Indian maunds in question, includes the 3,41,881, for which sanction was granted in the Order quoted above. It should be explained to what Faslis the remainder belongs, and also whether there is any more wastage still remaining in the accounts.

* *8th June* 1860, *No.* 950, *Revenue Department.*

17. Agreeably to the present recommendation of the Board, the Governor in Council sanctions the writing off of the wastage of 1269, viz., Indian maunds 2,35,200, the cost price of which appears from enclosure A in statement 14 to be Rupees 36,483. The quantity thus allowed to be written off should be at once removed from the accounts and returns, and should not appear again. The practice above referred to, which the Board also condemned last year, causes great confusion. No reason appears why the accounts of wastage of salt for different Faslis should not be kept as distinct as the arrears of revenue for different years; and the Government desire that this may be done for the future. It is proper, however, that the wastage of every year should be written off after its close, as soon as the sanction of the Government can be obtained. Nothing is gained by retaining it in the accounts; but the Government believe that there is much room for improvement as to the quantity of wastage reported.

18. The net increase in the salt revenue is stated in paragraph 27 at Rupees 6,46,018, but in paragraph 31 it is stated at Rupees 6,80,212. No good reason appears for this discrepancy. The difference consists of extra revenue and refunds of charges; but if these items are given as revenue in one place, they ought to be so in the other. It is of great consequence in revenue accounts that a given term should always signify the same thing; unless this rule is strictly observed, great confusion must result. In future also the cost of salt, as well as the wastage, should be shown separately from Establishment, &c., which latter constitute the real charge of management.

19. The salt charges shown in the present returns are less by Rupees 29,000 than those reported for the previous year, but no inference can be drawn from this fact, because, as stated in paragraph 32, the charges shown are not those of the year under report or of any entire year. It is very desirable that the charges shown in each year's Report should represent those of the year; and the Government trust that the Board will be able to effect this in future years, as they intimate the intention of doing.

20. The statement in paragraph 36 shows the demand on account of all sources of revenue, in comparison with that of the previous year. On the whole there is an increase of 17,55,540 Rupees as shown in the margin. Of the entire demand, being Rupees 536,42,539, the amount realized within the Fasli year was 526,99,147 Rupees. The balance thus outstanding, being Rupees 26,98,932, was reduced by the end of October to Rupees 5,12,908, being 93 per cent. This result is very creditable to all concerned. The balance then outstanding has no doubt been since materially reduced; the Government trust that the Ryotwari balance has been investigated and settled during the Jamabandi of 1270.

Fasli 1268.....	536,42,539
Fasli 1269.....	553,98,079
	17,55,540

21. Paragraphs 40 to 42 of the Board's Report relate to the arrears of former years. These arrears amounted on the 31st October 1860, to Rupees 7,94,333; but this included a balance in Tanjore conditionally remitted in connection with the Ulungu abolition, and of which by far the greater part, if not the whole, will eventually be actually remitted. The amount of this balance is stated by the Board at Rupees 3,63,100, but this seems to be a mistake; for a detailed statement of old arrears obtained from the Board's Office and to be noticed presently, states the entire arrear of Fasli 1268, to which year alone the conditional remission referred, at only Rupees 1,91,986. Of the remaining arrears the sum of Rupees 1,04,592-11-7 is stated to be irrecoverable; and on the Board's recommendation the Governor in Council authorizes the writing off of that amount to "Profit and Loss." The Shrotriyam report alluded to in paragraph 41 should be submitted at an early date.

22. As regards the remaining balance the Report is silent as to what years it belongs to, and what means the Board have taken to satisfy themselves that the arrears have in every District been duly investigated. But the Government obtained from the Board the sub-joined Statement of the arrears of Land Revenue not permanently settled, up to October 31st 1860, showing the amount for each District and the years for which due:—

Districts.	Old balance of Faslis prior to Fasli 1257.	Fasli 1257.	Fasli 1258.	Fasli 1259.	Fasli 1260.	Fasli 1261.	Fasli 1262.	Fasli 1263.	Fasli 1264.	Fasli 1265.	Fasli 1266.	Fasli 1267.	Fasli 1268.	Total.

Of the entire amount given in this statement, Rupees 88,515 has now been remitted, leaving the actual arrear Rupees 6,39,985; but the remarks on the statement must treat of the whole amount as an arrear, as the particulars cannot be distinguished.

23. It is seen that the arrears extend back for many years; in the Kistna as far back as Fasli 1228 or A. D. 1818; in Tinnevelly and Coimbatore as far back as Fasli 1252 or A. D. 1842; in a few other Districts as far back as 1849. In the Districts noted in the margin, the arrears are trifling in amount.* In Vizagapatam there is no arrear prior to Fasli 1267; in South Canara none prior to Fasli 1265; and in Kurnool and Madura none prior to Fasli 1264.

* *Vizagapatam.*
Kurnool.
Trichinopoly.
North Canara.
South Canara.

24. It is utterly useless for any good purpose to retain these old arrears in the accounts. They ought to have been investigated and adjusted many years ago, and the Board will now call the special attention of the Collectors to the necessity of their early adjustment. It will probably be found on very slight inquiry that all the arrears of above five years standing may be written off at once; those of more recent date will need closer investigation, but the whole may be completed in a short time if the work is vigorously taken in hand. The Board have just submitted a very complete report from the Collector of Tanjore on the old arrears in that District; and a similar one should be obtained from every District. This settlement of the old arrears is so important, that if in any District it cannot be done otherwise, it will be worth while to employ a Deputy Collector solely on this duty, under the Collector's orders.

The inquiry should embrace arrears under all heads.

25. In reviewing the Reports both of Fasli 1267 and Fasli 1268 the Government dwelt on the importance of an early settlement of all balances; that those fairly due might be promptly recovered, and those irrecoverable for sufficient cause be struck off. The new Law for the recovery of arrears (Act XXXIX of 1858) has much strengthened the hands of Collectors, and it is the desire of Government that the powers thus given should be fully used. It is only necessary then that the Collectors should also follow the rule of investigating every outstanding arrear at the settlement of the Fasli succeeding that to which it belongs, if not before, and take immediate measures for the recovery of such as are not then found to be irrecoverable. It is desirable that the Board should keep their attention steadily directed to this rule; and enforce it in those Districts where it is not now duly followed. If it is rightly followed the evasion of payment where justly due, and the accumulation of old arrears, will be alike impossible.

26. The figures in paragraph 43 of the Board's Report give the entire receipts from all sources. The Government presume, though it is not expressly stated, that the Statement represents the receipts within the year under report, which constitute the actual revenue of the year. The amount exceeds that of the preceding year 1268 by above twenty lacs of Rupees, or £200,000. The reveuue of 1268 exceeded that of 1267 by nearly half a million sterling.

27. In paragraph 23 of the Order on the report for Fasli 1268, the Government requested the Board to submit with every future year's Report a statement in a form then given, to show the demand, the receipts, and the charges, under all heads, for a series of years. On the present occasion they have not furnished such a Statement; but they have sent up another instead, showing the same particulars for the single year under notice, for each District. The Government will not object to such a Statement being furnished every year, but they are not prepared to dispense with the other. It will form a useful record of the past, instead of the entire information in the Report being confined, as is now usual, to the single year reported on and the year preceding. The series of years in the Statement should be twenty.

28. The Government are gratified to learn (paragraph 48) that the services of the Deputy Collectors are well spoken of by Collectors, and that the objects contemplated in the creation of that grade have been so fully attained.

No. 884.

From J. D. SIM, Esq., Secretary to the Board of Revenue,
To J. D. BOURDILLON, Esq., Secretary to Government, R. D.

SIR,

1. I am directed by the Board of Revenue to submit their annual Report on the Settlement and Collection of the Revenues of this Presidency for Fasli 1269 (A. D. 1859-60), with the usual explanatory Statements as per accompanying list. A printed volume containing the Reports of the several Collectors is also herewith forwarded.

2. During the year under Report, territorial alterations have been made in some of the Collectorates. The three Districts of Rajahmundry, Masulipatam; and Guntoor, have been formed into the two new Districts of the Godavery and Kistna; Madras has been amalgamated with Chingleput, the united Districts being designated Madras; and Canara has been divided into two Collectorates called North and South Canara. The accounts accompanying this Report have been drawn up, so as to indicate the transactions of the new Districts as correctly as practicable, but as the changes were carried out in the middle of the Fasli, there was some difficulty in their preparation.

3. The Taluqs settled on Ryotwar principles are the same as in Fasli 1268, in all the Provinces except Malabar, in which, under the order of the Board dated 7th May 1860, Cochin ceased to be considered as a separate Taluq. The variations in the number of Ryotwar villages (which alone are entered in the Statement here referred to) are owing chiefly to a more correct arrangement of them; thus, in Vizagapatam there is a decrease of 204 villages, which, though held on various tenures, as Rented, Agraharum, and Mocassa, were erroneously included till last year under the head of Ryotwar. In Tanjore 144 of the resumed Mocassa villages belonging to the late Raj have been incorporated with those of Government, but these being under Ulungu tenure, are not included in the Statement, which shows only Ryotwar villages.

STATEMENT No. 1.

4. SEASON.—The season is of a less favorable character than the preceding one. It opened well, but after November there was a general failure of rain. On the whole, in the Districts of Ganjam, Vizagapatam, Nellore, Madras, Tinnevelly, Coimbatore, and North and South Canara, the season was favorable; but in the other twelve Districts it was below the average; and in parts of the Ceded Districts there was actual drought. The freshes in the Kistna, Cauvery and Coleroon, were unusually high and caused much damage. The highest fresh in the Kistna was 37 feet, at which height, the river remained for several days.

Revenue Administration Report 1859-60, dated 23d June 1860, No. 2,930, paragraph 2.

Districts.	April to September 1859 inclusive.	October 1859 to March 1860 inclusive.	Total for the whole year.	Total for last Fasli 1268.
Ganjam	48·5	6·9	55·4	40·0

North Canara	107·6	17.6	125·2	135·5
South Canara				
Malabar	93·7	15·1	108·8	115·1

5. The average fall of rain in each District as compared with Fasli 1268, is shown in the margin.

* This is clearly erroneous, but the Collector has not been able to correct the mistake.

6. In the Provinces, Cholera, Fever and Small pox were prevalent. In Malabar, cholera of a virulent type was fatal in 13,953 out of 16,343 cases reported. In North Canara the Collector notices that Fever has been very prevalent during the last two or three years, and that this disease, for which the division of Hannu has long been notorious, was now showing itself in the comparatively healthy Balaghat Taluq of the District.

7. Vaccination is gradually becoming better understood by the people, and its advantages seem to be generally more appreciated. The operations of the Vaccine Department during the year under report in some of the Districts, are shown in the margin. It will be seen that in Malabar, the percentage of successful cases is very small, owing, it is stated, partly to the unfavorable character of the climate, and partly also to the measures adopted for securing greater accuracy in the returns of the Vaccinators.

Districts.	No. of Children vaccinated.	Successful.
Bellary	9,523	9,025
Kurnool	1,880	1,625

8. Cattle suffered much from Murrain in Nellore Kurnool and Coimbatore, and from want of water and pasturage in the Madura District.

9. Prices continued very remunerative, although lower than in Fasli 1268, in which year they rose to rates unprecedentedly high. The subjoined abstract STATEMENT No. 2, and its enclosure. will show that though they fell from 10 to 16 per cent. in Fasli 1269, they were still (with one exception, Jawary,) considerably above the average prices of the previous ten years; they were also above the commutation rates:—

	Average of 10 years from Fasli 1259 to Fasli 1268.	Fasli 1268.	Fasli 1269.	Increase or decrease in Fasli 1269 on the average of 10 years.	Percentage of increase or decrease.	Decrease below Fasli 1268.	Percentage.

10. The decrease below Fasli 1268 was general in all the Districts except Kurnool, South Canara, and Malabar. In Kurnool all descriptions of grain sold at rates slightly higher than those of Fasli 1268; in South Canara and Malabar, the price of Paddy was as much as 29 and 26 per cent. above the preceding year. The subjoined abstract shows the increase in each District in the price of 2d sort Paddy, which is taken as being the staple food of the people:—

11. The general fall is to be attributed to increased production, and less demand for foreign markets.

12. The extent of land in occupation or comprised in the Ryots' holdings was 146,41,496 acres, assessed at 310,85,669 Rupees; which shows an increased net occupancy above the preceding year, of 4,73,641 acres, assessed at 6,15,108 Rupees; but in this acreage the Estates in North and South Canara and Malabar are not included; for, owing to peculiarities of land tenure in those Districts, the extent under occupancy is not known.

STATEMENT No. 3.

	Acres.	Rupees.
Ryots' holdings of Fasli 1268..	141,67,855	304,70,561
Do. of Fasli 1269..	146,41,496	310,85,669
Increase.....	4,73,641	6,15,108

Remainder...	143,89,214	304,45,710

Of the above occupancy 2,52,282 acres were left uncultivated under circumstances entitling the holders to remission, and the assessment thereon Rupees 6,39,959 was accordingly remitted.

	Waste Remission.	
	Extent.	Assessment.
	Acres.	Rs.
Fasli 1265	3,12,724	7,91,743
Fasli 1266	3,54,941	8,88,172
Fasli 1267	7,20,083	16,78,709
Fasli 1268	4,24,514	10,01,931
Fasli 1269	2,52,282	6,39,959

13. This item "Waste remitted" was considerably less than in previous years. This result is to be attributed to the more rigid enforcement of the rule which requires the Ryots to pay the full assessment on the whole extent of their holdings (except under certain peculiar circumstances), and which has consequently led to the relinquishment of those lands which could not be advantageously cultivated.

14. The actual cultivation of Fasli 1269, including land left waste under circumstances not entitling the owners to remission, is compared with that of the preceding year in the following abstract:—

As shown above, and in the accompanying Statement No. 4, the occupation of land for cultivation has steadily increased. In every District except the Godavery and Madras, there has been an extension of cultivation in unirrigated lands, and an increase of "wet" cultivation also in all, except in the three Districts of the Godavery, Bellary and South Arcot. In the Godavery District the decrease is only apparent, and is owing to the restoration of the Zemindary of Nedadavole, to the former proprietor; in reality there has been an increase in both "dry" and "wet" cultivation, about 20,000 acres of land having been taken up under the annicut in excess of the previous year. In Nellore there appears a decrease of 45,145 Rupees, though there is an increase of "dry" cultivation to the extent of 30,735 acres. This decrease in money is owing to the *net* assessment only (after deducting the authorized reduction on the old assessment) having properly been entered in this year's Statement.

15. In the irrigated lands, notwithstanding the general increase of cultivation, there will be seen a large decrease of assessment, viz., 25,47,111 Rupees in four Districts; with the exception of Rupees 48,080 in Bellary and South Arcot, the whole of this appertains to Tanjore and Tinnevelly. This decrease is the consequence partly of the abandonment of the Ulungu system, and the introduction of the Motafysul mode of settlement into most of the villages of Tanjore, whereby the whole estimated produce has been definitely fixed, and the rate of commutation on it once for all determined instead of varying as formerly with reference to fluctuating prices; and to the introduction into Tinnevelly of a similar measure, viz., a fixed, instead of a varying commutation price on the standard produce of the extent actually cultivated. With respect to the large decrease in Tanjore, it is to be observed, that less than half the sum is in reality the true decrease, because, though in last year the whole sum assessable in consequence of the large gain by price was added to the demand, it could not be collected, and Rupees 9,18,808 were remitted by order of Government; the real decrease in Tanjore is, therefore, only 8,71,033 Rupees. It may be further remarked also, that the prices which regulate the demand on the Ulungu system in Tanjore and Tinnevelly, fell in the Fasli under review to the extent of 40 per cent. in Tanjore, and 35 per cent. in Tinnevelly, and it may, therefore, be safely assumed that a decrease in the revenue of both Districts would have resulted, had the settlement been conducted as usual by taking into account the gain by price over the standard rate. The Collector of Tanjore observes that the financial result of the Motafysul settlement is on the whole advantageous to Government, though at the same time also a relief to the Mirasidars, and that there is not only an increase of nearly 40,000 Rupees in excess of the standard Ulungu of Fasli 1268, but also upwards of 4,000 Rupees in excess of the average Collections actually realized, and brought to account according to the Ulungu for the past twenty years.

Tanjore.....	17,89,841
Tinnevelly.....	7,09,191

16. In the item of Fasuljasty, or second crop assessment (Rupees 7,95,707), there is a net decrease of Rupees 20,218; and in the item of Teervajasty, or revenue from additional assessment on dry lands when irrigated by Government water (Rupees 6,49,392), there is an increase of about 50,000 Rupees.

17. A net decrease of Rupees 7,05,981 occurred in the item of Remissions, which consist as usual of three divisions, Occasional, Fixed, and Deductions from the Demand, chiefly for remuneration to Village Officers, &c. The largest portion of the decrease, viz., Rupees 6,50,006 is in remissions for withered crops comprised in the first of the heads abovementioned, and is principally in Tanjore, where heavy losses were sustained in Fasli 1268, in consequence of the extremely disastrous character of that year. In several of the other items also there is a considerable diminution of remissions granted under that head. There was an increase of Rupees 33,335 in Cowle remissions in Bellary. In this District a large extent of the

	Fasli 1268.	Fasli 1269.
Occasional..	22,47,638	13,98,989
Fixed	15,67,182	17,16,566
Deduction of a Stipendiary nature	7,30,456	7,23,740
	45,45,276	38,39,295

blacklands was brought under cultivation in Fasli 1269 in consequenceof the late revision of assessment. This abatement of the demand is in accordance with the rules of that District.

18. The net increase of Rupees 1,96,504 in the second head of Fixed Remissions is chiefly attributable to a general reduction in the assessment recently made in Salem, and to the lowering of the unirrigated rates in South Arcot. The full amount of reduction in Salem is now exhibited under this head, but up to Fasli 1268, a large portion of it being the remission of 12½ per cent. on dry lands, appeared among the occasional remissions. The particular attention of Collectors was drawn to the subject of remissions, and it is manifest from their reports that they have bestowed much care in giving only those that were necessary, and in refusing to sanction any that were not properly claimable. The total sum of remissions of every description allowed by the Collectors, amounting to Rupees 38,39,295 may be accepted as satisfactorily explained. But the Board will have to remark on some of the items when reviewing the Collectors' reports separately. The similar remissions granted in the two previous years amounted

In Fasli 1267 to..... Rupees 54,43,968
„ 1268 to..... „ 45,45,276

19. The Sundry items which appear as an addition to the Ryotwar revenue, amounted to Rupees 25,38,657 or Rupees 1,27,129 in excess of the demand under this head in Fasli 1268—nearly the whole of this increase (Rupees 1,04,278) is the proceeds of the increased water-rates levied on Inams, &c., irrigated by the Godavery and Kistna annicut channels, as sanctioned by Government in their Order, 7th December 1859. The variations in the remaining items call for no special remark, except that of "Forest Revenue" in which there is a net decrease of Rupees 35,563 as exhibited separately in the present statement in accordance with the orders of Government, dated 8th June 1860. This revenue is given in the margin. In Fasli 1268, the value of Teak timber supplied to the Bombay Dock yards, during the preceding five years was adjusted and credited in the accounts of the Collector of Coimbatore; the absence of any similar credit in the year under review causes the apparent decrease of Rupees 1,41,720 in that District. The increase in North Canara amounting to Rupees 1,00,074, is attributed to the sale during the Fasli of large stocks of wood in store. In reporting the progress made in Forest conservancy, the Collector Mr. Fisher observes that the results which are now manifesting themselves in the realization of a larger amount of revenue, and the more strict preservation of valuable tracts of forest, are very satisfactory.

20. The settlement of "Aumany" villages needs only the remark that the Estate of Chokumputty in Tinnevelly, which in Fasli 1268 was under the Collector's management under Aumany, has been made over to the Zemindar.

21. The cultivation of the special products of Sugar cane, Cotton and Indigo, is shown in the margin. There is an increase of about 3,000 acres in the Cane, and a decrease of about 45,000 in Cotton, and of 12,000 acres in Indigo cultivation.

Total....	411,32,371	405,14,140	85,912	7,04,143
			Net decrease.....	6,18,231

24. In the Peishcush of the permanently settled Estates, there is a net increase of Rupees 85,912 arising from a gross increase of Rupees 1,07,347, and a decrease of Rupees 21,436, the particulars of which are given in the margin. The increase consists principally of the "Peishcush" of the Nedadavole and Baharzally Estates in the Godavery, and of the Chockumputty Estate in Tinnevelly, which were restored to their respective proprietors in the year under report. In Madras and North Arcot, the decrease is caused by deductions made in the Peishcush of certain Estates as compensation for lands taken for Railway purposes; and in Madura, Rupees 11,023 is the amount of Moturpha compensation, which hitherto it has been the practice to include with the Peishcush in the accounts, but which is now excluded from that item and otherwise shown under recent instructions from the Board.

	Increase.
	RS.

Moturpha compensation in Madura	11,023
Do. in Tinnevelly	8,260
	21,436
Net Increase	85,911

25. The decrease is large only in the item of "Ryotwar," which has already been explained

26. On the whole the net decrease under the head of Land Revenue, as compared with the previous year, amounts only to Rupees 6,18,231. But it has already been remarked that cultivation is steadily increasing, and when it is considered that the revenues of the Godavery and Tinnevelly Districts were affected by the restoration of the Akwade, Ralunge, and Chockumputty Estates to their respective Zemindars, and that large relief was afforded to the Mirasidars of Tanjore and Tinnevelly, by allowing them to enjoy all the benefits arising from high prices, the result of the year is, in the Board's opinion, satisfactory. Compared with the preceding ten years there is a large increase, amounting on the average to 36⅓ lacs. In this series of years the last Fasli (1268) exhibits the largest revenue; but on a fair comparison with even that year, the result of the present one is an increase of nearly six lacs instead of a decrease to that amount, as the following figures show:—

	RS.

28. Of the increase in the "Abkarry," the greatest portion, or Rupees 1,14,965, is in the Town of Madras. The Government are aware that in this District, the Abkarry farm is under the direct management of the Officers of Government; and the progressive increase apparent in the revenue during the last few years reflects credit on the local authorities entrusted with its management. The increase in the Kistna District arises from the transfer of the Military Abkarry farm of the Town of Masulipatam to the Collector, and the increase in Tanjore is occasioned by the higher offer received for the rent of the Abkarry farm of the late Rajah, which was resumed and incorporated with the general revenue of the District in Fasli 1268.

The stock on hand at the commencement of the year was small, and there has consequently been much activity in the manufacture of new Salt during the year; the quantity produced was 87,03,586 Indian Maunds being more by 2½ millions of Maunds than the quantity manufactured in the preceding year. The sales of Salt on the whole were in excess of the previous years, but only to a small amount, viz., 89,581 Maunds. But in three Districts* the increase was considerable. In the Godavery there was an increased demand for exportation to Calcutta; in the Kistna the increase is in the Inland consumption; and in Madras it is attributed to the facilities afforded by the Railway for the conveyance of Salt into the interior, to the increased exportation of Salt to Calcutta on private trade, and to a large supply of Salt sent to Tanjore and South Arcot to meet the deficiency in store in those Districts. That a greater quantity of Salt was not sold during the year in other Districts may be partly accounted for by the small stocks of old Salt in hand.

	Id. Mds.
* Godavery.....	1,82,768
Kistna.....	1,47,013
Madras..	2,00,640

30. The wastage written off under the sanction of Government is considerably below the quantity written off in Fasli 1268. But as explained in paragraph 52 of the last year's Report, that year included the accumulated wastage of several former Faslis; the quantity of wastage in the present Fasli (1269) amounts to Indian Maunds 2,35,200, the percentage of loss is only. 5·21; or 1·24 less than the percentage of last year. In some Districts, however, as in Ganjam and Vizagapatam, the loss is heavier; a cyclone which occurred in those Districts in December having caused considerable damage. The sanction of Government is requested for writing off the wastage of 2,35,200 Maunds above shown.

See Enclosure A to Statement, No. 14.

31. The gross Salt revenue, including extra items and refunds of charges, amounted to Rupees 65,53,936; the charges of every description, amounting to Rupees 9,62,880 being deducted, leaves a net revenue of Rupees 55,91,056; which exceeds that of Fasli 1268 by Rupees 6,80,212.

STATEMENT No. 15.

Items.	Fasli 1268.	Fasli 1269.	Increase.	Decrease.
	RS.	RS.	RS.	RS.
Revenue from Salt sales.....	58,96,654	65,42,673	6,46,019	...
Extra revenue and refunds of charges.....	6,220	11,264	5,044	...
Total gross revenue.....	59,02,874	65,53,937	6,51,063	..

Net revenue.....	49,10,845	55,91,057	6,80,212	...

The increase is due partly to the enhanced sales, but chiefly to the monopoly price having been raised 2 Annas per Indian Maund, agreeably to the Orders of Government, dated 19th August 1859.

32. The charges show a decrease below Fasli 1268 of Rupees 29,149, though there is an increase in the quantity manufactured of Indian Maunds 25,62,583. The charges in each District were as follows:—

Districts.	Fasli 1268.		Fasli 1269.		Increase.		Decrease.	
	Charges.	Percentage on the gross revenue.	Charges.	Percentage on the gross revenue.	Charges.	Percentage on the gross revenue.	Charges.	Percentage on the gross revenue.

Total	9,92,029	17	9,62,880	15	1,14,846	...	1,44,095	...
						Net Decrease...	29,149	...

The increase is attributed in part to larger payments to the manufacturers, and to charges for freight, &c., for Salt sent from one District to another; the decrease to smaller payments on the same account; and in Malabar to the purchase of less Salt than in the preceding year. It must, however, be remarked that the charges shown in the Statement do not represent the actual charges of the year, as under the present system of audit no charges are allowed to be entered in the accounts before they are finally passed by the Civil Auditor. This is generally done some months after the charges are incurred, and consequently the returns do not exhibit the actual transactions of the year; the Board have it in contemplation to correct these defects as far as circumstances will permit, the duty of auditing the charges having now devolved upon them, under the Orders of Government, dated 5th November 1860, No. 2,047.

33. The increase in the Sea Customs Revenue, amounting to Rupees 10,76,965, is due to the provisions of Act VII of 1859, which were in operation for a longer period in the Fasli under report than in the previous year.

34. The Demand on account of "Extra" revenue amounted to the large sum of Rupees 6,15,039, being Rupees 3,61,872 in excess of Fasli 1268. A sum of Rupees 2,55,682 of this increase occurs in Tanjore, being the Land Revenue of the resumed Mocassa villages of the late Raj, collected and kept in deposit during past years, and brought to the credit of Government under this head only in Fasli 1269.

Fasli 1268	2,53,167
Fasli 1269	6,15,039
	3,61,872

35. The item "Interest account" does not call for remark, the increase under this head being only Rupees 6,525.

36. The Current Demand from all sources amounted to Rupees 553,98,079, which is Rupees 17,55,540 above the Demand of Fasli 1268. The net increase is the result of a decrease in land to the amount of Rupees 6,18,231, and an increase of Rupees 23,73,771 in the remaining items as shown below :—

STATEMENT No. 17.

Items.	Fasli 1268.	Fasli 1269.	Increase.	Decrease.

		Net Increase.....	17,55,540	

37. Of this Demand, the sum of Rupees 526,99,147 was collected within the Fasli, leaving a balance at its close of Rupees 26,98,932, or Rupees 4·87 per cent. which was further reduced by subsequent collections up to October last, to Rupees 5,12,908, or Rupees ·93 per cent. debitable to the following items of revenue :—

STATEMENT No. 18.

	RS.
Land Revenue Peishcush.....	1,20,684
Land Ryotwar, &c.....	3,55,325
Abkarry.....	3,274
Moturpha.....	13,150
Extra revenue.....	17,654
Interest account.....	2,821
Total.....	5,12,908

38. A Peishcush balance of Rupees 76,534 is due on the Estates of Nedadavole and Baharzally, and will be deducted from the mesne profits which accrued from these Estates while under the management of Government. The remaining balances are in course of settlement: some depend on the disposal of claims to remission; others are mere postponements of payment; one is the debt due by the Bíbí of Cannanore, and others are demands on Moottahs which may probably have to be sold in liquidation of the arrears.

North Arcot..	62,621
Madras..	53,613
Godavery....	48,270
Tanjore....	46,718
	2,11,222
Remaining 16 Districts.	1,44,103
Total..	3,55,325

39. The balance under the second head consists chiefly of Ryotwary arrears, and the greatest portion of it is in the Districts noted in the margin. The attention of the Collectors will be called to the necessity of immediately collecting these balances, if they have not already been realized.

40. The arrears on account of former years outstanding at the beginning of Fasli 1269 amounted to Rupees 58,01,632, of which Rupees 30,15,016 were collected within the Fasli, and Rupees 17,01,204 were remitted under orders of Government, leaving a balance at the close of the year of Rupees 10,85,412. This was further reduced by subsequent collections and remissions up to 31st October last to Rupees 7,94,333, of which Rupees 6,89,742 are classed either as doubtful or recoverable. In this sum is included Rupees 3,63,101, part of the remission granted by Government in Tanjore, conditionally on the acceptance of the Mirasidars of the proposition of Government to abolish the system of Ulungu, the completion of which in some of the villages was still pending. This being deducted, the net amount will be Rupees 3,26,656, of which the recovery of a large portion is doubtful, and is undergoing inquiry, in view to its being recommended for remission. There remains the sum of Rupees 1,04,592-11-7 which after due inquiry is declared to be irrecoverable.

STATEMENTS Nos. 19 & 20.

41. This irrecoverable balance consists of the following items:

STATEMENT No. 20.

	RS.	A.	P.
Ryotwar, &c.....	88,515	7	7
Abkarry.....	913	7	10
Moturpha.....	3,780	5	2
Extra Revenue and Interest.	11,383	7	0
Total...	1,04,592	11	7

In Nellore there is a balance of Rupees 18,750-9-0 outstanding, against certain Shrotriums which were resumed (the holders having signified their inability to pay the arrears); against Shrotrium villages which the holders consented to take up on the terms offered by Government in their Proceedings, dated 24th December 1859 (viz. remission of all arrears due prior to Fasli 1265); and against other Shrotriums in which lands were taken up for roads or were submerged in beds of tanks. Further particulars in regard to the Shrotrium balances of Nellore will be furnished in a separate communication, which will shortly be submitted; but the Board do not see the necessity of any longer retaining these balances in the accounts, seeing that they are for the most part due on Shrotriums permanently resumed, and have thought it proper to include them with the irrecoverable balances proposed for remission.

Ayen Shrotrium balance..	18,422-1-8
Stalakarnums russooms...	328-7-4
Total...	18,750-9-0

42. In the remaining Districts, the Collectors have reported that the arrears recommended by them for remission are really irrecoverable, owing to the usual causes of the death, absence, or poverty of the persons by whom they are due. The Board, therefore, recommend that the sanction of Government may be granted for writing off the entire irrecoverable balance above shown, amounting to Rupees 1,04,592-11-7 to the head of "Profit and Loss."

43. The collections, current and arrear from every source of revenue throughout the Presidency amounted to Rupees 557,14,163, being Rupees 20,13,318 in the aggregate, above those of the previous year.

Items.	Fasli 1268.	Fasli 1269.	Increase.	Decrese.

		Net....	20,13,318	.....

The amount outstanding at the beginning of the Fasli under report was much smaller than that due at the commencement of the previous year, which partly accounts for the decrease observable in that item.

44. Coercive process was employed for the realization of the revenue to a greater extent than in last year. Process was issued against 18,188 Ryots, and property to the amount of two lacs was attached; but by far the greater part of the demand was paid up without the adoption of further measures; the amount of property actually sold being only 31,172 Rupees, more than one-half of which was in Tanjore, where it was found necessary to have recourse to extreme measures for the recovery of arrears of past years.

STATEMENT No. 22.

45. The charges amounted to 57,48,468 Rupees or 10·3 per cent. on the collections, including refunds of charges of the year. The amount is nearly the same as in the last year, viz:—

STATEMENT No. 23.

Items.	Fasli 1268.	Fasli 1269.	Increase.	Decrease.
Charges of management...	40,18,398	39,17,327	...	1,01,071
Extra charges...	17,49,277	18,31,141	81,864	..
Total...	57,67,675	57,48,468	81,864	1,01,071
			Net...	19,207

46. The decrease under the head of Management is nominal rather than real, being caused by the salaries of Establishments in some Districts for the last month of the Fasli having been disbursed at the beginning of the ensuing year. The reduction effected by the abolition of Guntoor as a separate District, and by the amalgamation of Madras and Chingleput, is also to some extent the cause of the decrease above exhibited. The increase in the extra charges is chiefly in Tinnevelly, and is accounted for by the payment to the heir of a deceased Inamdar of the mesne profits of his Inam during its resumption.

Government Order, 14th April 1859.

47. Statement No. 24 has been prepared in accordance with the wishes of Government in paragraph 23 of their Proceedings, 8th June 1860, No. 950. It shows in one view the Revenue demand of the year, the collections made in the course of it, the balance remaining at its close, and the aggregate charges in all the Districts of the Presidency. In the statement submitted to Government with the Board's Proceedings, 29th June 1860, similar information was furnished for the previous years, from Fasli 1260 to 1268 inclusive; as the present return is confined to a single year only it has been prepared so as to give the details for each District.

48. The Collectors generally make favorable mention of the conduct and services of their subordinates. It is gratifying to the Board, and will not be less so to the Government, to find from their reports that the objects which led to the formation of the grade of Deputy Collectors, have been attained in a very satisfactory degree. The services of these Officers have been valuable and are favorably acknowledged by the Collectors.

I have the honor to be,

Sir,

Your most obedient servant,

(Signed) J. D. SIM,

Secretary.

Revenue Board Office,
Fort St. George,
16th February 1861.

Copy to all Collectors.

South Arcot.
Madura.
Trichinopoly.

The entries of assessment for these Districts in columns 3, 5, 7 and 9 will be found to differ from those in columns 35, 37, 39 and 41 of the corresponding Statement of Fasli 1268 as the second crop and additional assessment have been excluded from the former, according to the recent orders of the Board. In Madura also differences will be observed, owing to the transfer of the survey dry lands permanently converted into wet or garden, to their respective new heads this year, under the orders of the Board, dated 27th February 1860. Differences in the Godavery and Kistna Districts are explained by the transactions of the Akevade and Ralingi Divisions, which were made over to the Zemindars in February 1860, having been excluded.

Rev Dept

No 907.

Proceedings of the Madras Government
Under date the 22nd April 1861

Read the following
letter from the Secy: to the
Board of Revenue —

Submitting the Board's annual report on the Settlement and Collection of the Revenue of this Presidency for Fasli 1269 with the usual explanatory statements

Here enter 16th February (ult: 1859)

In this letter
of Revenue
the Board, report on the
Settlement and Collection of
the Revenue for the Fasli
year 1269, A. D 1859–60.

2. The season is described
as having been less favorable
than that of 1268, in consequence
of a general failure of rain
after November. It is stated
however that on the whole

it

it was a favorable season in the eight Districts noted in the margin: tho' below the average in the remaining twelve. The tabular statement of the rain fall shews that in Bellary the quantity was only half of that of the previous year; and in several Districts, especially Kistna, Bellary, and Kurnool, the fall after October was very small.

Ganjam
Vizagapatam

Madras
Tinnevelly
Combatore
North Canara
South Canara

3 Paras 6 & 7 notice the sanitary state of the country as usual. His excellency in Council regrets that he is unable to regard the figures attached to para 7, and purporting to shew the increase of vaccination in parts of the Madras Presidency as

as at all trustworthy. Except in Malabar, the proportion of "successful" to "unsuccessful" is contrary to all experience, and the same care which reduced the figures in the excepted District, might be usefully employed elsewhere.

4 Prices. (Paras 9 to 11). The in general below those of 1268 but were still very remunerative. In three Districts only they ranged higher than in the preceding year, viz. in Kurnool, Malabar and South Canara; in the last mentioned two Districts the rise exceeded 25 percent. As regards the tabular statement appended to para 10, the Govt would remark that the proper mode of shewing the rise of price

is

is not to compare single years, but to take for comparison the average of a few years of medium prices of some time back. Thus the averages of Faslis 1256 to 1260, and of 1261 to 1265, might have been compared with subsequent years. In future reports this plan should be observed.

Paras 12 and 13.

5 The extent of land in occupation in the Ryotwar Districts and parts of Districts, (omitting North & South Canara and Malabar) is stated at 146,41,496 acres, of which 2,82,282 acres were uncultivated and struck out of the settlement. The area on which

which the settlement
was made was 143,89,214
acres; bearing an assessment
of 304, 45, 710 Rupees.

6 The net extent of land
newly taken up in the year,
deducting that relinquish-
ed or transferred, was
4, 73, 641 acres; the extent
in the preceding year
(Stasti 1218) was little less
being 4, 59, 812 acres. This
progressive extension of occu-
pation is gratifying, and
indicates a healthy and
flourishing condition
in the rural popula-
tion. This increase is
noticed by the Board in
Para 14. In every District,

they

they say, there was
an increase, both in wet
and dry cultivation, ex-
-cepting only in Bellary in the former, and Madura in the latter.
and South Arcot. It is
also gratifying to observe
that the extent of land
under occupation remit-
-ted at the settlement is
greatly less in the year
under report than in
former years. This object
of making the settlements
as much as possible
on the holding, should
be steadily kept in view,
tho' in unfavourable
seasons it will still be
necessary to depart from
it

it to some extent.

7. It is observed that the area under occupation in Hasli 1265, as given in the present Report (Para 12) and in the Report for that year (Paras 24 and 25) differs by above a lakh of acres. This discrepancy should be explained by the Board; it may possibly be owing to the area of the occupied land in the old Madras or Presidency District being now newly shown in the Returns.

It

8. It must be
pointed out also
that a serious er-
ror appears in the areas
given in the com-
parative statement
No. 5. The figures
for Fasli 1269 re-
present the whole
of the land in oc-
cupation; while those
for Fasli 1268 repre-
sent the area taken
as the basis of the
settlement, Excluding
the "waste remitted". The
heading indicates that
the

the latter is what ought to be shown in the statement, and the figures for Fasli 1269 therefore are wrong. The same error is found in statement No 4. The Govt are surprised to find such an error in a statement prepared in the Board's Office.

9. Para 14 of the Report exhibits the entire settlement of all the Gyotwar Districts and parts of Districts X including North & South Canara and Malabar. The net result is a decrease of Rs 7,14,951, in the settlement, notwithstanding the large

increase

increase of occupation above noticed. This decrease is owing in part to the reduction of assessment in Nellore, but chiefly to the abolition of the Ulungu system in Tanjore and Tinnevelly. The apparent loss from the latter cause is nearly 25 lacks of Rupees; but the Board points out (Para 15) that in consequence partly of remissions in past years of the amount of gain by price, and partly of the heavy fall in the price of grain in the year under notice in both the Districts concerned, the loss is in great part only nominal.

Paras

Para 17 and 18 of the Board's Proceedings reviewing the "remissions" which are given in detail in Statements 6, 7 and 8, do not call for much remark. The Government are gratified however to observe a decided decrease under this head in comparison with previous years, and to receive the Board's assurance that the Collectors are paying attention to the subject.

Para 19. 11. An increase of more than a lac of Rupees appearing under the head of "Sunday items" arises from the water tax levied on mâmûlies in the ~~Godavery~~ Godavery and Krishnah Districts. The decrease in the only other item considered worthy of remark viz: "Forest Revenue

is explained as only apparent.
His Excellency in Council
is glad to find that the Forest
Conservancy is spoken of as
increasing in usefulness, &
performing its part in adding
to the Revenues of the Country:
the amount realized during
Fasli 1269 being more than
two lacs and eighty seven thousand
Rupees.

12. In Para 29 the Board
give a Statement shewing
the entire Land Revenue
of Fasli 1269 in comparison
with that of the preceding year.
The result is that there is a net
deficiency of Rupees 6,18,231.
The larger part of this falling
off is in the Bijapur District,
notwithstanding the facts
already noticed, of a large
increase of land in occupa-
tion, and a decrease in the
occupied land struck out
at the settlement. Some of

the

x F 1268 - 44,32,371
F 1269 - 40,14,140
Decrease 6,18,231

the circumstances which ~~are likely to~~ turned the ~~ba~~ balances against the Revenue have been already noticed, in particular the apparent heavy loss of Revenue in Sangore and Simmerally. to this is to be added the loss under this head of Revenue by the restoration of two Zemandaries to the Proprietors.

13. In Para 26 the Board give a Statement of the settled Revenue of the two years preceding Fasli 1269, from which it is seen that that of the last mentioned year exceeds the average by 36⅔ lac of Rupees. The Board point out also that if the Revenue of Fasli 1268 is corrected to suit the circumstances noticed in the preceding para, and also ~~stated, and~~ by omitting certain receipts not properly belonging to that year, it will fall short of that of Fasli 1269 by

by nearly six lacks.

14. The increase of above twenty lacs of Rupees in the "Sundry sources of Revenue" is divided among all its branches viz:

Para 34.

(1)	Abkarry	148,140
(2)	Moturpha	19539
(3)	Salt	6,6018
(4)	Sea Customs	10,76965
(5)	Sayer	60276
(6)	Stamps	54406
	Total	2,05,374

More than half the increase viz 10¾ lacs, is in Sea Customs, and is due to the operation of Act VII of 1859.

15. The salt transactions are noticed in paras 29 to 32. The season was favorable for manufacture; and stocks being above at the beginning of the year it was carried on vigorously, so that the quantity made was 2½ million

million maunds more
than in the preceding
year. Deducting in-
creased sales to the extent
of Indian maunds 89,581
(wastage),
the quantity of salt in
store at the end of the
Fasli exceeded that
remaining at its com-
mencement by Indian
maunds 12,24,878. ~~The~~
~~increased sales, it is~~
~~observed, worked in the~~
~~three Districts of Godavary,~~
~~Kistnah, and Madura,~~
~~alone, more than 30,000~~
~~Indian maunds over~~
~~the net increase in~~
~~the whole of 1875-76, there~~
~~must have been a corre-~~
~~sponding falling off~~
~~in other Districts, the par-~~
~~ticulars of which, however,~~
~~in the absence of any com-~~
~~parative statement of~~

~~[illegible], are not discernable.~~

16. The Salt wastage (para 30) calls for some remarks. Statement No. 14 shews that the wastage written off, under sanction of Govt., amounts to Indian Maunds 6,68,284: 0. further sanction is requested for writing off 2,35,200 Indian Mds. on account of the present Faslee 1269. It is not explained to what years the former figures appertain. In commenting on this subject in their order on last years (1263) Revenue Report, the Govt. remarked on the practice of retaining in the accounts wastage belonging to former years, & requested that care might be taken to prevent the recurrence of such an irregularity. It is presumed that the 6,68,284 I.M. in question, includes the 3,11,881, for which sanction was granted in the order quoted above. It should be explained to what faslis the remainder belongs, & also whether there is any more wastage still remaining in the accounts.

17 Agreeably to the present recommendation of the Board the Governor in Council sanctions the writing off of the wastage of 1269, Fy: Indian Mds 2,35,200, the cost-price of which

8th June/60 No. 930. R. D.

which appears from Enclosure A
in Statement 114 to be
Rupees 36,483. ~~and the value~~
~~at the Hoovapoly prices~~
~~Rupees 2,45,862~~. The
quantity thus allowed
to be written off should
be at once removed from
the accounts and Returns,
~~and should be at once~~
~~removed from the accounts~~
~~and Returns~~, and should
not appear again. The
practice above referred to,
which the Board also con-
demned last year, causes
great confusion. No
reason appears why the
accounts of wastage of
salt for different Godis
should not be kept at distant
as

as the arrears of Revenue
for different years, and the
Government desire that
this may be done for the
future. It is proper how-
ever that the wastage
of every year should be
written off after its close as
soon as the sanction of the Govt can be obtained.
Nothing is gained by
retaining it in the accounts;
but the Govt believe that
there is much room for
improvement as to the
quantity of wastage re-
ported.

18 The net increase in
the Salt Revenue is stated
in Para 37 at Rupees 646018;
but in Para 31 it is stated
No good reason appears for this discrepancy.
at Rupees 680212. The differ-
ence consists of extra Revenue
and refunds of charges.

Each

but if these items are given as Revenue in one place, they ought to be so in the other. It is of great consequence in Revenue accounts that a given term should always signify the same thing, unless ~~the Board will be able to~~ this rule is strictly observed, great confusion must result. In future also the cost of salt, as well as the wastage, should be shewn separately from Establishment &c. which latter constitute the real charge of management.

19 The salt charges shewn in the present Returns are less by Rs. 29,000 than those reported for the previous

previous year- but no inference
can be drawn from this facts
because as stated in Para
32 the charges shewn
are not those of the year
under Report- or of any
entire year- It is very
desirable that the charges
shewn in each year's Report
should represent those of
the year; and the Govt
trust that the Board will
be able to effect this in
future years as they intimate
the intention of doing.

20 The statement in
Para 36 shews the demand
on account of all sources
of Revenue, in comparison
with that of the previous
year. On the whole there
is an increase of
17,55,540 Rupees as shewn
in

Fasli 1268 -	536,42,539
Fasly 1269	556,98,079
	1,755,540

in the margin. Of the entire demand, being Rupees 536,42,539, the amount realized within the Fasli year was 52699147 Rupees. The balance thus outstanding, being Rupees 26,98,932, was reduced by the end of October to Rupees 5,12,908, being 93 per cent. This result is very creditable to all concerned. The balance ~~then~~ outstanding has no doubt been since ~~that for~~ ~~then~~ materially reduced; the Govt trust that the ryotwari balance has been investigated and settled during the Jamabandi of 1270.

Para 2

21. Paras 40-42 of the Board's Report relate to the arrears of former years. These arrears amounted on the 31st October 1860 to Rupees 1,94,338. Rupees 1, but this included a balance in Tanjore conditionally remitted ~~in Tanjore~~ in connection with the Umrgu abolition, and of which by far the greater part, if not the whole, will eventually be actually remitted. The amount of this balance is stated by the Board at Rs 368,100; but this seems to be a mistake. For a detailed statement of old arrears obtained from the Boards office and to be noticed presently, states only Rs 191,986. Of the remaining arrears the sum of Rupees 104592-11-7 is stated the entire arrear of Fasli 1268, to be irrecoverable; and, on the to which year alone the conditional remission referred, ob

Board's

Board's recommendation
the Governor in Council
authorizes the writing off
of that amount to "Profit
and Loss". The Protriyann
Report alluded to in para
41 should be submitted
at an early date.

22 As regards the
remaining balance the
Report is silent as to what
years it belongs to, and
what means the Board
have taken to satisfy
themselves that the arrears
have in every District
been duly investigated.
But the Govt obtained
from the Board the sub-
joined Statement of the
arrears of Land Revenue
not

not permanently settled up to October 31st 1869, shewing the amount for each District and the years for which due.

× Total 133

Of the entire amount given in this statement Rupees 88,515 has now been remitted, leaving the actual arrear Rupees 639985 — but the remarks on the statement must treat of the whole amount as one arrear, as the particulars cannot be distinguished.

23 It is seen that the arrears extend back for many years; in the Kistna as far back as Fasli 1228 or A.D. 1818, in Tinnevelly and Coimbatore as far back as Fasli 1252 or A.D. 1842, in a few other Districts as far back as 1849. In the Districts noted in the margin the arrears are trifling in amount. × In Vizagapatam there

× Vizagapatam
Ellamor
Trichinopoly
North Canara
South Canara

there is no arrear prior to
Fasli 1267; in South Canara
none prior to Fasli 1265; in
" " " in
" " and in Kurnool
and Madura none prior to Fasli 1264
-94. It is utterly
useless for any good pur-
-pose to retain these old
arrears in the accounts.
and they are for the
most part trifling in amount.
They ought to have been
investigated and adjusted
many years ago, and the
Board will now call the
special attention of the
Collectors to the necessity of
their early adjustment. It
will probably be found on
very slight enquiry that
all the arrears of
above five years standing
may be written off at once.
those

those of more recent date will need closer investigation but the whole may be completed in a short time if the work is vigorously taken in hand. The Board have just submitted a very complete Report from the Collector of Tanjore on the old arrears in that District; and a similar one should be obtained from every District. This settlement of the old arrears is so important, that if in any District it cannot be done otherwise, it will be worth while to employ a Deputy Collector solely on this duty, ~~in each District~~ under the Collector's orders.

The enquiry should embraced

embrace arrears under all
Heads.

75 In perusing the
Reports both of Fasli 1267
and Fasli 1268 the Govt dwell
on the importance of an early
settlement of all balances;
that those fairly due might
be promptly recovered,
and those irrecoverable for
sufficient cause be struck
off. The new law for
the recovery of arrears
(Act XXXIX of 1858) has
much strengthened the hands
of Collectors, and it is the
desire of Government that the
powers thus given should
be fully used. It is only
necessary then that the
Collectors should also follow
the rule of investigating
every outstanding arrear
at the settlement of the
Fasli

Fasli succeeding that to
which it belongs if not
before, and taking
immediate measures
for the recovery of
such as are not then
found to be irrecoverable.
It is desirable that the
Board should keep their
attention steadily directed
to this rule; and en-
force it in those Districts
where it is not now duly
followed. If that rule is rightly
followed the evasion of payment
26 The figures
in Para 43 of the
Board's Report give
the entire receipts from
all sources. The Govt
presume, though it is
not expressly stated,
that

* where justly due and the accumulation of old arrears will be alike impossible.

that the Statement repre-
sents the receipts within
the year under Report,
which constitute the
actual Revenue of the
year. The amount exceeds
that of the preceding
year 1268 by above twenty
lacks of Rupees, or £200,000.
The revenue of 1268 exceeded
that of 1267 by nearly
half a million Sterling.

27 In Para 23 of
the Order on the Report
for Fasli 1268, the Govt.
requested the Board to
submit with every future
year's Report a State-
ment in a Form then
given, to shew
the Demand, the Receipts,
and

and the Charges, under all heads, for a series of years. On the present occasion they have not furnished such a State-ment; but they have sent up another in-stead, shewing the same particulars for the single year under notice, for each District. The Govt will not ob-ject to such a Statement being furnished every year; but they are not prepared to dispense with the other. It will form a useful record of the past, instead of the entire information in the Report being confined, as is now

usual

usual to the single year reported on and the year preceding. The series of years in the Statement should be twenty.

28 The Government are gratified to learn (Para 48) that the services of the Deputy Collectors are well spoken of by Collectors, and that the objects contemplated in the creation of that grade have been so fully attained.

Admitted.
