Proceedings of the Madras Government, Revenue Department, 12th January 1861.

No. 179. Read the following Proceedings of the Board of Revenue, dated 4th January 1861, No. 23: —

Read the following letter from A. HATHAWAY, Esq., Collector of Bellary, to W. HUDLESTON, Esq., Acting Secretary to the Board of Revenue, Fort Saint George, dated Hospett, 22nd December 1860, No. 12.

SIR,

1. In continuation of my letter dated 11th instant, No. 10, I have the honor to state for the information of the Board of Revenue that the inhabitants of Kampli in the Táluq of Hospett, and of Hampasagar in the Táluq of Huvinhadgalli have applied to me to allow them to fix the duties under Act XXXII of 1860, by means of a Panchâyat according to Parts 11 and 12 of the said Act, and request the Board will be pleased to obtain the sanction of Government for the above measure.

2. As it is probable that the inhabitants of other places in this District will be anxious to be allowed to make similar arrangements, I would recommend that the Board of Revenue be pleased to obtain the general sanction of Government for granting permission to fix the tax by Panchâyat on the application of the inhabitants concerned, and to report the measure for their information, as by deferring action till the sanction is obtained, much delay is occasioned.

1. Submitted to Government with the Board's recommendation that the assessment of the inhabitants of Kampli and Hampasagar to the Income Tax by means of a Panchâyat be sanctioned.

2. The Board cannot support the proposition contained in paragraph 2 of the Collector's letter inasmuch as they consider that it is undesirable that a general permission should be accorded by Government for assessing the Income Tax by means of Panchâyats and because it appears to them that Part 11 of the Act prescribes that such a mode of assessment should only be adopted under the order of Government as from time to time applied for.

2. The instructions issued in paragraph 2 of the Order of 1st December 1860, No. 2,292, should be observed in this and in all future similar cases.
