From a statement furnished by the Commissary General, and submitted by the Accountant General, with his letter of the 8th instant, it appears that the following Estimates had been prepared by the Commissariat Officers of the supplies to be provided for the undermentioned Civil Departments or Offices for the year 1861-62.

The Commissary General will be so good as to explain the particulars of this sum.

9. Extracts from the Commissary General's list of the supplies chargeable respectively to the Bombay Presidency, the General Government of India, Bengal Presidency and Government of Prince of Wales' Island will be forwarded to those several Governments in view to their making such arrangements as they may deem expedient for procuring such of them as have hitherto been obtained from the Commissariat on account of Civil Departments. Meanwhile and until further orders are received, the Commissary General must meet the requisition of those Governments as before.

10. The various Officers who are authorized to procure supplies under these orders will understand that the amount of the estimates for their several Departments is in each case the maximum expenditure, which is on no account to be exceeded, but that it will be their duty to reduce the outlay within that limit as much as possible by taking every precaution that the articles are bought at the lowest prices consistent with good quality, and that their consumption is duly checked.

11. The Civil Auditor will also at the end of the year furnish a statement showing for each Department the amount passed in comparison with the maximum estimate now sanctioned.

12. In future years commencing from 1862-63 the expenditure anticipated on account of these Civil supplies will be included in the Budget estimates of the several Departments by which they are required.
