*Proceedings of the Madras Government, Public Works Department,
24th January 1862.*

No. 111. Read the following letter from Lieutenant-Colonel J. CARPENDALE, Acting Deputy Chief Engineer Central Circle, to Lieutenant-Colonel W. H. HORSLEY, Chief Engineer and Secretary to Government, Department Public Works, dated Chepauk, 21st January 1862 No. 9,639 :—

SIR,

1. I have the honor to submit for the information of Government the accompanying letter from the District, Engineer of South Canara, reporting that Lieutenant Smalley, 2nd Assistant District Engineer in that District, had been summoned to appear in the Session Court at Tellicherry for the purpose of giving evidence in a case of forgery of his name in a Departmental cheque for Rupees 500.

2. Captain Moberly states that in consequence of the urgency of the summons he considered it necessary to permit Lieutenant Smalley to leave his station without previous reference to this Office, and requests to be informed of the course he should follow in future cases of the kind.

3. In reply I have informed Captain Moberly that the course he adopted on the occasion brought to notice was approved of, as the prosecution was clearly a Government one ; and that with regard to future cases, orders for his guidance would be communicated to him as soon as the views of Government in regard thereto had been received.

4. At present there are no standing orders on the subject, and I would suggest that definite instructions might be circulated for the guidance of the Officers of this Department generally. It would appear desirable to authorize District Engineers to cause the prompt attendance of all members emergently summoned on behalf of Government, reporting the circumstance to the Deputy Chief Engineer of the Circle, but that when time admit of it, a previous reference should be made to him. It also appears necessary to provide a rule for the guidance of District Engineers in the case of members of the Department summoned by any Court up-country to attend as witnesses in private suits and trials.

5. In all cases I would suggest that, during the time an Officer or Subordinate may be absent from his range in attendance at a Court of Justice, he should be considered on duty and entitled to his full salary, and also if the case is connected with Government to the travelling allowance of his rank as calculated under the rules.

No. 112.

ORDER THEREON, 24th January 1862, No. 57.

1. The Government approve of the course adopted by Captain Moberly on the occasion of Lieutenant Smalley's summons to appear before the Sessions Court at Tellicherry.

2. For future guidance the Government direct that whether in a public or private suit, provided the summons is received from a properly constituted Officer, it should be attended to within the time specified therein, and a report of the circumstance made to the Deputy Chief Engineer of the Circle.

3. Lieutenant-Colonel Carpendale suggests that in the case of a public suit, the party summoned should be considered as on duty and receive his full salary and travelling allowance, and in that of a private one that he should be allowed his salary only. The Government approve of these suggestions and direct that they be adopted for the future.

(Signed) W. H. HORSLEY, Lieut.-Colonel,

Chief Engr. and Secy. to Govt., D. P. W.

Lieut. Col. T. D. Hardy
Chief Engineer, detaching
to the Government 1802.

Dated 11/3 1802
Dec 22 1802 January 1803

Eng. 1802

Informing that in the
conduct of the boundary
Engineers has been allowed
to proceed to St. Louis
give notice in a case of
Surgery and respecting an
instruction for the guidance
of Officers generally when
detached to attend at
Court of Justice.

57-24 duty

With an order

1803

The Government approve of the mode
adopted by Captain Hardy in the
execution of the boundary & system
before the Surveyor General at St. Louis.

For future guidance the Government
direct that whether in a Civil or Military
Suit, provided the summons is issued from
a properly constituted Officer, it should be at-
tended to within the time specified therein,
and a report of the circumstances made
to the Deputy Chief Engineer of the District.

At St. Louis Randolph suggests that
in the case of an Order such, the party
summoned should be considered as not
being and receive his full salary and
standing allowance, and in that case
provide one that he should be at-
tended his salary only - The Govt approve
of these suggestions and direct that they
be adopted for the future.
