Proceedings of the Madras Government, Public Works Department, 2nd June 1862.

No. 27. Read the following Endorsement of Lieutenant-Colonel S. O. E. LUDLOW, for Deputy Chief Engineer, Southern Circle, dated Chepauk, 17th May 1862, No. 685.

Read the following letter from Captain T. E. GAHAGAN, District Engineer of Salem, to Lieutenant-Colonel J. OUCHTERLONY, Acting Deputy Chief Engineer, Southern Circle, dated Tripatore, 10th May 1862, No. 1 :—

SIR,

1. I have the honor to reply to your letter No. 206 of the 6th instant, regarding a Gram godown now under construction at the Remount Depôt.

2. The object of placing a trap door over the entrance door of the Godown is to economize space.

The main entrance being closed, the building can be filled by means of the trap nearly to the top of the walls, all the ventilation that is necessary being secured by a number of small oval apertures in the walls just under the roofing.

The other Gram godowns at the Depôt are all built in this way, and perfectly answer the purpose for which they were constructed.

3. The plan and estimate (Rupees 2,000) for this Gram godown were sanctioned in Extract Minutes Consultation No. 2,716 of the 31st July 1861.

4. The sanctioned plan and estimate were countersigned by Colonel Arbuthnot, Acting Agent for Remounts.

The alterations now under consideration are proposed by Colonel Thompson the Agent.
