1. In reply to the Government Order, dated 25th April 1862, No. 836, referring to the Board for report paragraph 8 of the Despatch from the Secretary of State, dated 15th June 1860, No. 39, requiring to be informed whether the Board's interdict against the levy of a water cess in addition to the consolidated Nunjah assessment on "Mamool wet" lands in the Masulipatam District under the influence of the Anicut works, pending the survey and revision of the assessment, had been extended beyond that District, I am directed by the Board to state that the correspondence noted in the margin was not communicated to any other District than Masulipatam, and that the application of the principle was to the best of their belief limited to those cases to which it was intended to apply when enunciated.

Board's Proceedings, No. 2,894, dated 30th July 1858.
Extract Minutes Consultation, No. 1,289, Revenue Department, dated 22nd September 1858.

2. The Government are aware that since the date of the Proceedings in question, the survey of the District has been made, and its assessment revised on the principle of a distinct charge for the land according to its intrinsic qualities when unirrigated, and of a cess for water supplied from Government works. The proposals of the Settlement Department are now under the Board's consideration and will shortly be submitted to Government.

3. The rules for the imposition of the water cess were approved by Government, in their Proceedings, dated 26th October 1861, No. 2,054, and have in many cases been already brought into operation.
