Proceedings of the Madras Government, Public Works Department, 10th June 1862.

No. 202. Read the following letter from Lieutenant-Colonel J. OUCHTERLONY, Acting Deputy Chief Engineer, Central Circle, to Lieutenant-Colonel W. H. HORSLEY, Secretary to Government, Public Works Department, dated Chepauk, 23rd May 1862, No. 887:—

SIR,

1. With reference to Government Order No. 814, dated 23rd April 1862, I have the honor to report that the Acting District Engineer of Madras informs me, Mr. Kennedy will be able to expend during the current year Rupees 20,000 upon the East Coast Canal from Sadras river to Salancooppum.

1 Letter from the Acting District Engineer, Madras, No. 82, dated 9th May 1862.

2. Of this amount Rupees 10,000 have been allotted from the 1 per cent. Income Tax Fund; and he suggests that Rupees 5,000 more be appropriated for the purpose in question out of the sum allowed for the maintenance of the northern portion of the Canal, which he expects to be able to keep in good order this year for Rupees 6,600. If Government accord sanction to this arrangement, there would remain only Rupees 5,000 to be provided for, which might be allotted out of the Reserve Fund.

No. 203. ORDER THEREON, 10th June 1862, No. 1,317.

1. Under the circumstances stated, the Government grant authority for a sum of Rupees 5,000 being expended on the Canal* between the Sadras river and Salancooppum from the amount (Rupees 11,600) allowed in the current year's Budget for the maintenance of the northern portion of the East Coast Canal.

* Estimate Rupees 29,000, sanctioned in Proceedings Madras Government, No. 814, dated 23rd April 1862.

2. The total sum available for expenditure on the above work will thus be Rupees 15,000, and in order to make up the difference between this amount and that (Rupees 20,000) which Mr. Kennedy expects to be able to spend during the current year, the Government will be pre-prepared hereafter, on the receipt of the necessary application, to make a special grant from the Reserve Fund.

3. The Government observe that Mr. Kennedy, the Officer in charge of East Coast Canal, considers that the annual allowance for the northern portion (58 miles) may be reduced to Rupees 100 per mile from the 1st May 1863. The Chief Engineer will accordingly make provision to this extent in the Budget for 1862-63.
