Proceedings of the Madras Government, Public Works Department, 19th February 1862.

No. 327. Read the following Proceedings of the Madras Government in the Revenue Department, dated 15th February 1862, No. 333 :—

Communicating Proceedings of the Board of Revenue urging the necessity of metalling the road from Nundial in Kurnool District for a distance of about forty miles towards the south. } (Vide Revenue Proceedings, 15th February 1862, Nos. 342-343.)

No. 328. ORDER THEREON, 19th February 1862, No. 266.

Communicated to the Deputy Chief Engineer, Northern Circle, who is requested to report the progress made in metalling the portion of road in question, and whether additional funds will be required for expenditure in the current year.

(Signed) W. H. HORSLEY, Lieut.-Colonel,
Secretary to Government.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following Proceedings of the Board of Revenue, dated 7th December 1861, No. 6,814:—

Read the following letter from J. I. MINCHIN, Esq., Acting Collector of Kurnool, to W. HUDLESTON, Esq., Secretary to the Board of Revenue, Chepauk, dated 28th November 1861, No. 135.

SIR,

1. As required in the Memorandum of the Sub-Secretary, dated 21st instant, I have the honor to reply to the Board's Circular, No. 1,635, dated 28th March, regarding the supply of Indian Cotton to England, although the subject has been so exhausted in official papers, and the Press, that I have no suggestions to offer worthy of the consideration of the Board.

2. Cotton of an inferior description is grown largely in this District, though owing chiefly to the failure of rains at the time when most required the cultivation fell about one-half in the last season below its average extent.

3. The present season having been favorable, and the price of Cotton having risen from Rupees 2-11-0 per maund in May last to Rupees 3-3-0 per maund, its present rate, there can be little question that the cultivation will this year reach, if it does not exceed its ordinary amount.

4. The Ryots are quick to see their own advantage, and there can be no doubt, that a permanent increase in the price of Cotton will cause a rapid increase in its cultivation, while such increase can be produced in no other possible manner.

5. There is nothing in the nature of the existing communications to prove any bar to the conveyance of Cotton on bandies during the dry months which follow the harvest. When the rain has set in by the end of May, all heavy transit between this District and Madras by way of [illegible] for a week or ten days after every heavy [illegible] time a bandy cannot get through the heavy Cotton soil which extends for about forty miles to the south of the village of Nandial.

6. The road over this tract of country is under construction, and I consider that its early metalling is of importance in every point of view.

7. The Irrigation and Canal Company will in the course of time construct their canal along this line, and when completed to the coast there can be no doubt that so bulky an article as Cotton will be forwarded by no other channel to Madras.

8. I fear, however, that the channel will not be open to the coast for from five to seven years at earliest, and would, therefore, earnestly press on the metalling of the road for use during the interval.

Ordered that copy of the above letter be submitted for the information of Government and communicated to the Chief Engineer, with reference to the Acting Collector's remarks on the necessity of metalling the road from Nandial for a distance of some forty miles towards the south.

(A true Copy and Extract.)

(Signed) W. HUDLESTON, *Secretary.*

ORDER THEREON, 15th February 1862, No. 333.

Communicated to the Department of Public Works, with reference to paragraphs 5 to 8 of the Acting Collector's letter to the Board of Revenue.
