pared by the Executive Engineer at Wellington, for a small lime kiln which he proposes to build for current use near the Engineer work yard, in lieu of one (of two) now in use, which being very large is found most expen-

sive to work for the small quantities of lime at present required on the Government works. The old kiln which is now in use is also very near the Barracks, and is consequently a nuisance. The estimate provides for a small shed for storing lime ; and the old one at present attached to the kiln which is objected to as being too near the Barracks will be removed. The General Funds of the District can meet this outlay.

No. 319. ORDER THEREON, 16th December 1862, No. 3,017.

The Estimate submitted with this letter is sanctioned from the funds proposed by the Deputy Chief Engineer, Southern Circle.

(Signed) W. I. BIRDWOOD, Colonel, R. E.,
Secretary to Government.

1 Abstract Estimate

Sir, I have the honor to submit herewith for sanction an Estimate amounting to — Rs. 475 prepared by the Executive Engineer at Wellington for a small lime kiln which he proposes to build for current use near the Engineer Works yard, in lieu of one (or two) now in use, which being very large is found most expensive to work for the small quantities of lime at present required in the Govt. works. The old kiln which is now in use is also very near the barracks, is consequently a nuisance. The Estimate provides for a small shed for storing lime; & the old one at present attached to the kiln which is objectionable as being too near the barracks will be removed. The funds of the District can meet this outlay. Please
