EDUCATIONAL DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following papers:—

Proceedings of Government, Public Works Department.

Acceding to the recommendation of the Chief Engineer relative to the services of Mr. Mechanical Engineer Hodgson being permanently placed at the disposal of Dr. Hunter for employment in the School of Arts, and observing that Government will authorize the transfer of the sum included in the current year's Budget for the Public Works Department on account of Mr. Hodgson's salary to the Educational Department on sanction being accorded to that Department for the entry of his salary, &c., in the future Educational Budgets.

(Dated 30th October 1862, No. 2,596.)

Proceedings of Government, Public Works Department.

Communicating letter from the Chief Engineer, stating what the salary and allowances are of Mr. S. Hodgson, 3rd Class Mechanical Engineer.

(Dated 17th November 1862, No. 2,770.)

ORDER THEREON, 16th December 1862, No. 430.

His Excellency the Governor in Council requests that Doctor Hunter will explain more fully than he has done in his letter to the Chief Engineer under date the 23rd October last, the necessity for permanently employing a Mechanical Engineer in the School of Industrial Arts.

2. He will state whether Mr. Hodgson is wanted to work the Steam Engine whenever it is used or merely to keep it in order. Mr. Hodgson's salary which, with extra allowances must considerably exceed Rupees 200 per mensem, cannot, it is understood, be met from the monthly allowance of Rupees 600 sanctioned for the School of Arts; and adverting to the views which have been expressed by the Home Government regarding the expenditure incurred on account of this Institution, the Governor in Council would not feel himself justified in sanctioning any increase of charge except on most urgent grounds.

3. Doctor Hunter will state how often the Steam Engine is used, and whether arrangements could not be made for keeping it in order by occasionally deputing one of the Artificers from the Gun Carriage Manufactory for the purpose. On this point he will consult Colonel Maitland.
