444-445

Dated 28-2-1862.

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department, 23th February 1862.

No. 444. Read the following letter from Lieutenant-Colonel J. CARPENDALE, Acting Deputy Chief Engineer, Central Circle, to Lieutenant-Colonel W. H. HORSLEY, Chief Engineer and Secretary to Government, Public Works Department, dated Chepauk, 15th February 1862, No. 10,605:—

SIR,

1. I have the honor to submit for the sanction of Government a plan with estimate amounting to Rupees 280, for constructing a privy in the Engineer Work Yard at Bellary for the use of the office Establishment, the Artificers, and the Coolies. The whole of these people have been in the habit of resorting to an open space in the rear of the Work Yard, which the inhabitants now complain of; and the District Engineer reports that the public latrines of the station are too far off to allow the people to go to them, as much of their time would be lost in going and in coming, beside the facility afforded for idling.

1 Letter from the District Engineer, Bellary, No. 426, dated 27th January 1862, with one enclosure.
1 Plan.
1 Estimate.

2. The amount can be defrayed from the general funds of the current year in the Bellary District.

No. 445. ORDER THEREON, 28th February 1862, No. 327.

The estimate for Rupees 280 submitted by the Acting Deputy Chief Engineer, Central Circle, is sanctioned, funds being provided as proposed in paragraph 2.

(Signed) W. H. HORSLEY, Lieut.-Colonel.
Secretary to Government.
