Proceedings of the Madras Government, Public Works Department, 3rd March 1862.

No. 15. Read the following letter from Lieutenant-Colonel J. CARPENDALE, Acting Deputy Chief Engineer, Central Circle, to Lieutenant-Colonel W. H. HORSLEY, Chief Engineer and Secretary to Government, Public Works Department, dated Chepauk, 17th February 1862, No. 10,622:—

1 Letter from the District Engineer North Arcot, No. 1,181, dated 24th December 1861.
1 Do. No. 739, dated 7th October 1861.
2 Estimates.

SIR,

1. I have the honor to forward two estimates, amounting in the aggregate to Rupees 220, for repairing the Bund and constructing an irrigation Sluice to the Seravanthangle in the North Arcot District.

2. The tank does not yield any revenue at present, and there is no correct record of what it formerly did. The Collector has taken agreements from eleven Ryots whose lands are under the tank guaranteeing an increase of revenue of Rupees 158 per annum, and he considers the work very desirable.

3. The estimates have been examined in this office and found to be correct, and I recommend that sanction may be accorded for the execution of the work from the general funds at the disposal of the District Engineer for the current year.

No. 16. ORDER THEREON, 3rd March 1862, No. 341.

The estimates submitted with this letter, amounting together to Rupees 220, is sanctioned for execution from the general funds at the disposal of the District Engineer North Arcot for the current year.
